TREES AND PLANTS THAT GROW

The stock offered in this catalog does well when transplanted in the fall. Better results are obtained with plants established this time of year.

COLCHIMUM Autumnale

IMPOSSIBLE TO KEEP FROM BLOOMING

Surprising and Beautiful. This the bulb that grows and blooms with no water, no soil, no care attention. Unique for table, room, or window decoration. Rosy tinted blossoms shade to a pearly-white and exhale refreshing fragrance. 30c each, 4 for \$1.00, 10 for \$2.00. Postage paid.

The prices listed in this catalog as low as first class nursery stock can be sold. **EVERY CUSTOMER MUST BE SATISFIED.**

FALL BOOK OF BARGAINS

Fruit has been the most profitable crop all through the depression. No farm should be without an orchard and some small fruit.

Specially Priced Evergreens

All evergreens B&B means plants dug with a large ball of earth and burlapped to keep the original dirt in contact with the roots and that means if shipped they must be packed in boxes in which we ship all of our B&B evergreens. If you live within several hundred miles it will pay you to group your order with your neighbors and friends so you can purchase enough to fill your car or a truck load, as we can make a special price F. O. B. Tippecanoe City.

(1) **PYRAMIDAL ARBORVITAE**—Grows naturally tall, slender columns of densely branched dark green foliage, but few evergreens can fill its place in a landscape effect. Prices, 2 to 3 ft., B&B, \$1.55 each; not prepaid.

(2) **IRISH**—Erect, slender and formal in habit; foliage sage green, very compact; making a splendid column eventually 15 to 20 feet high; much used in cemeteries. 2½ to 3 ft., B&B, \$2.00; not prepaid.

(3) **JUNIPER PFITZERI**—Broad evergreen with horizontal spreading branches. Grows from 4-5 feet high and has plume-like branches. 18-24 in., \$1.50; 2-3 ft., \$2.00; B&B; not prepaid.

(4) **NORWAY SPRUCE**—This tree is extensively planted in many of the states. Is one of the best conifers to plant for shelter and wind-breaks. 12 to 18 in., B&B, 65c; 18 to 24 in., B&B, \$1.00; 2 to 3 ft., B&B, \$1.50; not prepaid.

(5) **MUGHO PINE**—Dark brown branches, bright green leaves, stout. The tree is broader than it is high, forming a dark, dome-shaped bush. Very effective for rocky places. 12 to 18 in., \$1.50; not prepaid.

(6) **HEMLOCK SPRUCE**—One of the most graceful and handsome of the evergreens, especially valuable for hedgings, windbreaks and for specimen planting. The lumber of this tree is much used for frames of buildings. 18-24 in., B&B, \$1.75; not prepaid.

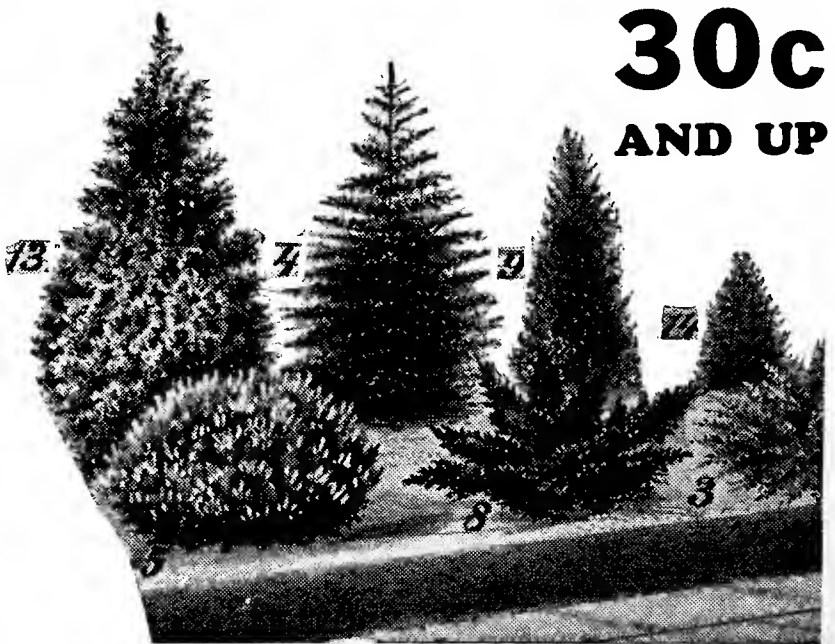

(7) **CHINESE JUNIPER**—Pyramidal or columnar outline, foliage of a pleasing grayish green color when fresh, maturing to real dark green. Adaptable to extremes of temperature and association with varying sorts. 2 to 2½ ft., B&B, \$1.50; 2½ to 3 ft., B&B, \$2.00; not prepaid.

(8) **SAVIN JUNIPER**—Handsome moss green foliage; adapted to use as a filler in evergreen groups, or as a dwarf ground cover. 12 to 18 in., B&B, \$1.50; 18 to 24 in., B&B, \$2.00; not prepaid.

(9) **CHINESE BIOTA**—A pyramidal tree attaining a height of 25 feet. Very compact form. Foliage is bright green. 18 to 24 in., B&B, 90c; 2 to 3 ft., B&B, \$1.25; not prepaid.

(10) **TOM THUMB**—A low growing arborvitae, good for edging evergreen plantings. Foliage similar to Retinospora. Very fine. 12 to 18 in., B&B, 90c; not prepaid.

**30c
AND UP**

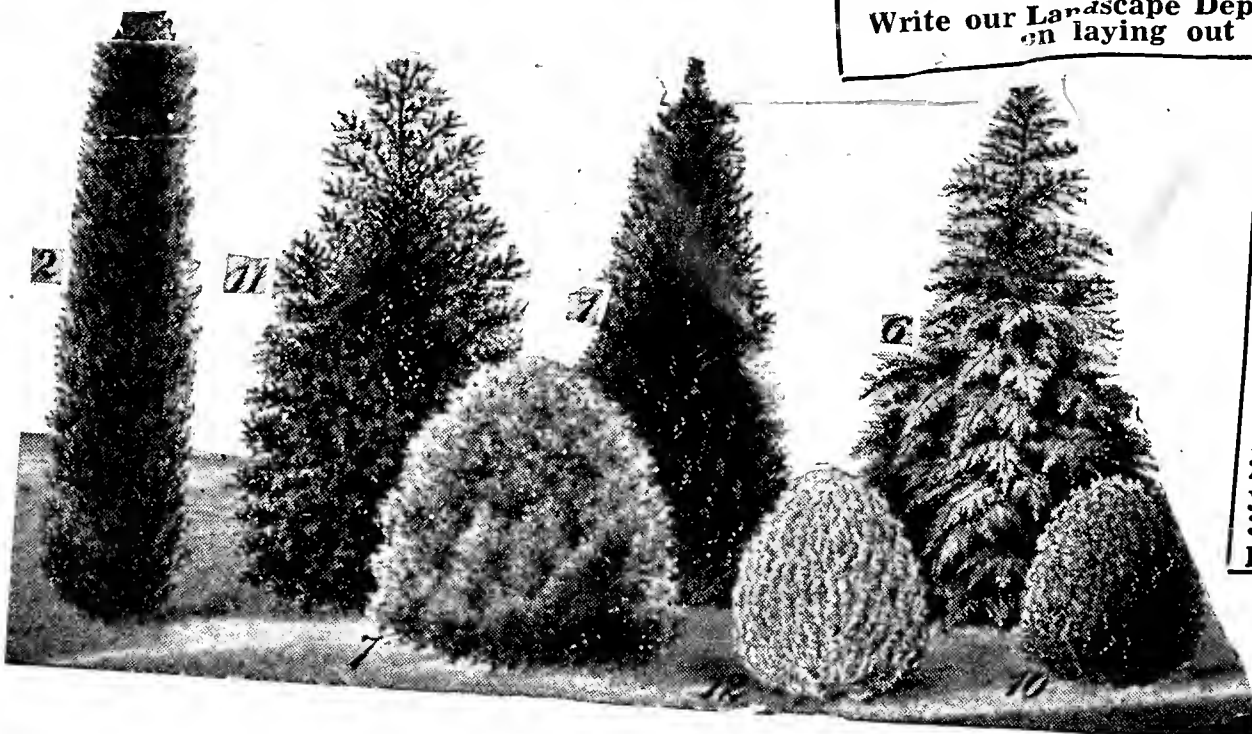

(11) **AMERICAN (Arborvitae)**—Foliage light green color. Very good for grouping, for tubs and vases, very quick grower and may be trimmed to any desired height. Fine for hedges. 18 to 24 in., B&B, 75c; 2 to 3 ft., B&B, \$1.25; not prepaid.

(12) **SIBERIAN ARBORVITAE**—Symmetrical, compact grower, very long lived. Dark green foliage, heavy and deeply crested. Branches short and stiff. Keeps good green color all winter. 18 to 24 in., B&B, 90c; 2 to 3 ft., B&B, \$1.25; not prepaid.

(13) **VIRGINIANA JUNIPER**—Fine, dense foliage, varying in habit and color, the majority being formal and bluntly conical. Fine tree for planting on each side of an entrance or in back of low growing varieties. 2 to 3 ft., B&B, \$1.25 each; 3 to 4 ft., B&B, \$2.00 each; not prepaid.

(14) **SWEDISH JUNIPER**—Columnar habit. Has grayish green prickly needles. Grows close; more open than Irish Juniper. Good for formal use. Free from blight and carries good winter color. 2-3 ft., B&B, \$2.00.

SPRING HILL NURSERIES

Established 1885

Tippecanoe City, Ohio

Prices are rising, but prices in this catalog are no higher than during the past few years. Another season will see a marked advance in all lines of Nursery Stock. We urge you to take advantage of these prices and plant now. The plants will become well established by spring and you will practically gain a year. The cold weather is not as disastrous to young plants as the hot dry weather following spring planting. Fall is the ideal time to plant shade trees, shrubs and evergreens.

You will find listed in this catalog Nursery Stock which should be planted at this season of the year. Your order will be filled promptly. No other investment you can make will pay such big dividends in both pleasure and profit as will dollars invested in trees and plants that grow.

AN AIRPLANE VIEW OF OUR PACKING SHEDS COVERING TWO ACRES OF FLOOR SPACE

Quality Stock

We have here in central western Ohio, one of the best sections for producing good nursery stock to be found anywhere in the United States. Added to these natural advantages, we use all modern methods in propagating, growing, cultivating, spraying, pruning, digging, and shipping and the result is satisfactory to our customers. Were it not for this we would not be able to make the strong guarantee shown on this page.

Guarantee

We guarantee all our stock to be true to name, good, clean and healthy first-class stock. We also guarantee it to reach you in good growing condition. If at any time found otherwise we will gladly replace the stock or refund the purchase price. It is mutually agreed and understood that we cannot be held responsible for a greater amount than the original purchase price.

General Information

Everything in this catalog that can be conveniently shipped by parcel post is marked **POSTPAID**. They will be delivered to you **PREPAID**.

TREES and **EVERGREENS** and other items in this catalog too large to be sent parcel post are marked by **Express**. They will be sent to you by **EXPRESS** or **Freight**, carrying charge **Collect**.

In case of mixed orders, where part of your order is to be prepaid and part not prepaid, the order will be shipped collect, but we will include enough extra plants of the varieties you have ordered to more than pay for our share of the express or freight charges.

Terms

Remittance should accompany the order. It may be made in any way most convenient to you, by check, money order, draft, or currency. If sent C. O. D. partial remittance must be sent with order. Please try to make your order out for \$1.00 or more.

Ornamental Shade Trees

Norway Maple

The recurring droughts have proven it is necessary that more trees be planted. The Government is doing its part, and it is up to us to help. If everyone would plant only a few trees it would greatly assist, and also be a benefit to the future generations.

We would be glad to help your community by suggesting varieties and quoting quantity prices which we know will be satisfactory for parks, cemeteries and street plantings. Our stock is strictly of the best quality.

Large shipments mean a saving to us which we pass on to you. If you live within several hundred miles it will pay you to group your order with your neighbors and friends so you can purchase a car or a truck load as we can save you money in this quantity.

ASH—FRAXIMUS

AMERICAN WHITE—A handsome broad-headed, quick growing shade tree, often reaching 120 feet in height. Very valuable for park and street planting. 6 to 8 feet, \$1.00.

EUROPEAN MOUNTAIN (*Sorbus Aucuparia*)—An ornamental deciduous tree with beautiful showy fruit, which turns orange red in fall, often remaining all winter. 6-8 feet, \$1.00.

WEeping MOUNTAIN ASH—A very desirable odd weeping tree. Beautiful berries as the Mountain Ash and has habit of the Weeping Mulberry. Easily grown. Exceptional value. Price, \$1.75 each; 2 for \$3.00.

LINDEN

Handsome, round-headed tree with large heart-shaped, bright green foliage. Rapid Growth. Greenish blossoms in June. 6-8 ft., \$1.00 each.

MAPLE—ACER

SILVER (*Saccharinum*)—Best known of all Maples. Wide, slender spreading branches. Thrives almost anywhere. 6-8 ft., 75c; 2 for \$1.25; 8-10 ft., \$1.00; 10-12 ft., \$1.25; not prepaid.

NORWAY (*Platanoides*)—Large, handsome tree with a compact rounded head. One of the best and most beautiful trees for the street, the park, cemetery, or lawn planting. 6-8 ft., \$1.00; 8-10 ft., \$1.50; not prepaid.

SCHWEDLERII (*Purple-leaved Norway Maple*)—In early spring the young leaves are bright red, changing to purplish green as they grow older. In autumn they are golden yellow. 6-8 ft., \$1.25; 8-10 ft., \$1.50; by express, not prepaid.

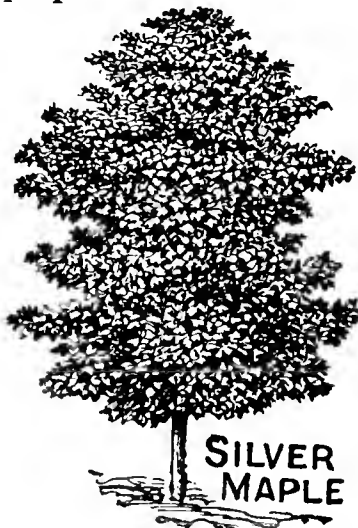

CATALPA BUNGEII (*Umbrella Tree*)—Just the tree to be used for formal effects. Propagated on a stem of the *Catalpa Speciosa*. It makes a very unique ornamental tree. Has a broad dome-shaped head at the top of a long straight stem. When the tree attains its full growth the top is often 15 feet in diameter and not over 3 to 4 feet tall on top of a strong stem from 7 to 8 feet in height. An exceptionally hardy variety. 5 to 7 ft., 2 year heads. 80c each; 2 for \$1.50; not prepaid.

CHINESE MAGNOLIA

The finest magnolia grown. It grows as far north as Detroit. Immense cupshaped flowers 4 to 5 inches across. The flowers, appearing before the foliage, create a wonderful scene and can be seen for blocks. 12-18 in., \$1.25 each; 3 for \$3.25; prepaid.

THE ROSE TREE OF CHINA

THE ROSE TREE OF CHINA (*Prunus Triloba*) is the most beautiful and showy of all small trees. Blooms before the leaves appear in the spring, with double rose-like pink flowers. As an ornament from early spring until late fall it has few equals. 2-3 ft., 65c each; by parcel post; prepaid.

SILVER
MAPLE

ELMS—ULMUS

AMERICAN (*Americana*)—Very valuable for park planting for avenues and as a shade tree for lawns. One of the most majestic and graceful of our shade trees. Hardy, a rapid grower, resists drought well, long lived. 6-8 ft., 75c; 8-10 ft., \$1.00; not prepaid.

ULMUS PUMILA (*A New Variety of Elm*)—A native of China. Rapid-growing tree. Forming a very dense head, with smaller, darker leaves than the American Elm. 6-8 ft., \$1.00; 8-10 ft., \$1.50; not prepaid.

Red Oak

All shade trees on this page shipped express collect

Ornamental TREES Shade

OAK—QUERCUS

RED OAK—80 to 100 feet tall, unusually large in leaf and quick in growth. The young shoots and leaf-stems are red, the foliage purplish crimson in Autumn. Price, 6 to 8 ft., \$1.75; 8 to 10 ft., \$2.25; not prepaid.

ORIENTAL SYCAMORE

The well-known Oriental Plant (*Plantanus Orientalis*). Used in great numbers to create vistas of dense green shade along new streets which require quick development of shade and ornamentation. A lofty, wide-spreading tree with deeply lobed palmate leaves; valuable for its handsome foliage, hardiness, and free growth. 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.50; not prepaid.

MAGNOLIA ACUMINATA (Cucumber Tree)—Broad handsome pyramidal specimen, with broad oval foliage. Flowers are inconspicuous. Tree beautiful in autumn when the cucumber like fruits crack open showing brilliant pink and scarlet seeds. 18-24 in., 50c; prepaid.

MAGNOLIA TRIPETALA (Umbrella Magnolia)—A rapid growing, hardy Magnolia. Usually attaining a height of 30 to 40 feet. The leaves are often 2 feet long and clustered at the tips of the twigs and radiate out like spokes of an umbrella. The white flowers have a heavy fragrance, are 7 to 10 inches across, and have 6 to 9 petals. The fruit is rose colored—large cones often 4 inches long, made up of numerous divisions which split in the fall. 3-4 ft., \$1.25; prepaid.

WEeping WILLOW

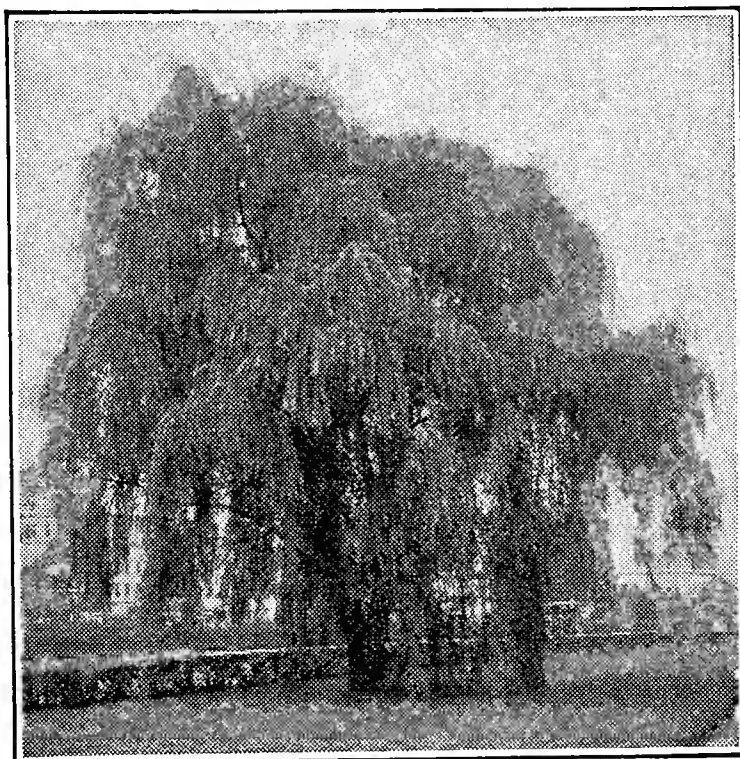

GOLDEN WEeping WILLOW (*Elegantissima*)—A strong and the most vigorous grower of all the weeping willows. For planting in low places or on the banks of streams, springs, lakes or ponds, making a very beautiful effect. 6-8 ft., 75c each; 2 for \$1.40.

WISCONSIN WEeping—A weeping tree of rarely more than 40 feet in height. The branches are long, slender, and pendulous. Trees are quite hardy in northern states. 6-8 ft., \$1.00 each; not prepaid.

WEeping MULBERRY

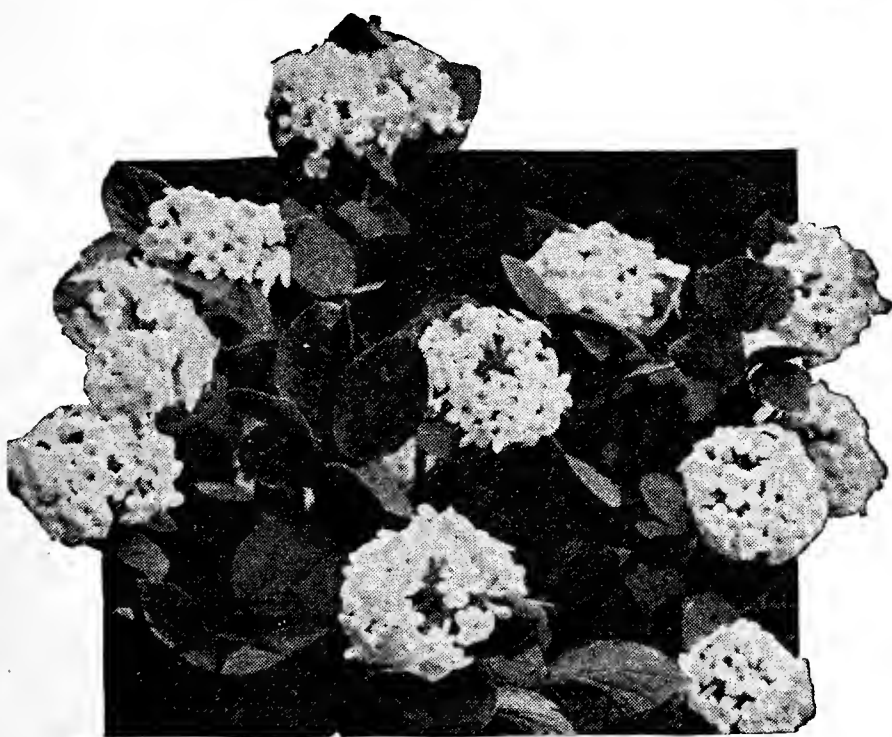

One of the thriftiest, hardiest and most beautiful of the weeping trees, with slender, willowy branches that sweep the ground, forming a beautiful tent of green. 5 to 7 ft. trees, \$1.50 each; 2 for \$2.50.

RUSSIAN MULBERRY—Very hardy and long lived. Heavy foliage, compact growth, fruit attracts birds. Also planted for windbreaks and hedges. 5-6 ft., 60c; 3 for \$1.50; not prepaid.

Weeping Willow

NEW AND OLD SPECIAL FAVORITES

Viburnum Carlesii

VIBURNUM CARLESII

(Fragrant)

PINK FLOWERING SNOWBALL—Round topped bush. Flowers are lovely pink fading to white; buds tinted orange pink. Blooms in April before leaves are fully opened. Pleasing heliotrope odor. Plant along the garden path. 2 ft., 65c; 2 for \$1.25; prepaid.

CORNUS KOUSA CHINESIS—The flower-heads are extremely large, frequently five to six inches across, the white bracts overlapping the button-like mass of real flowers in the center. Experts have acclaimed this Dogwood as the finest of Chinese plants introduced to America. Its flowers are produced in June and hang on in excellent condition for nearly a month. The fruits are like strawberries, and very much enjoyed by the birds. Its foliage turns scarlet in autumn. 12 to 18 in., 30c each; 2 for 50c; prepaid.

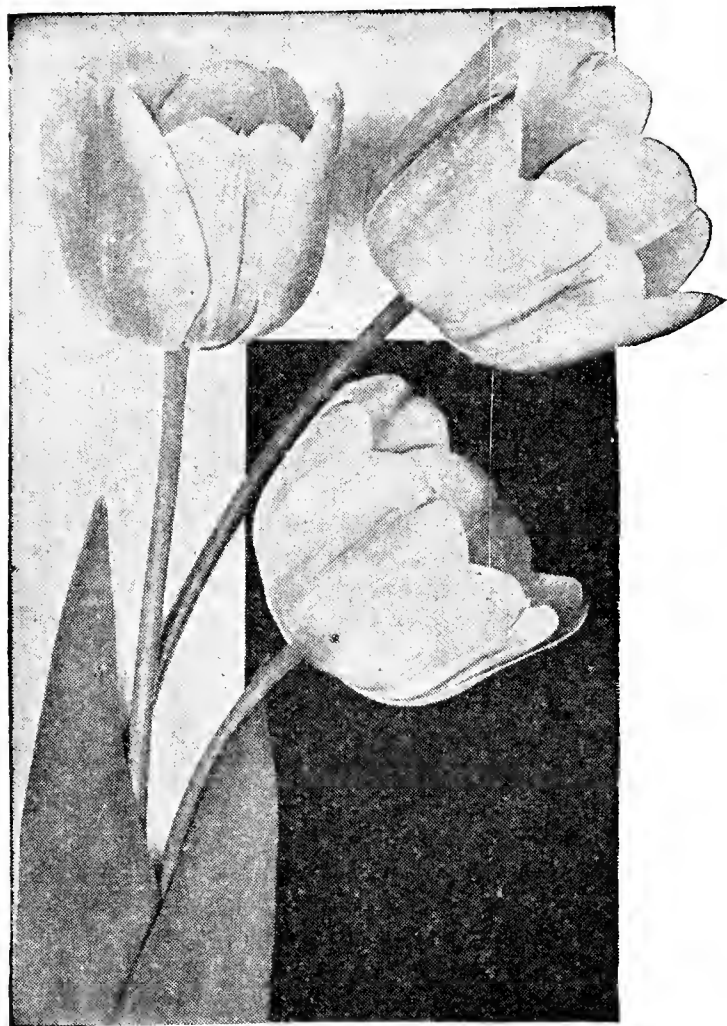

OAK LEAF HYDRANGEA—Rather uncommon; leaves resemble, in a magnified way, the foliage of some gigantic oak. Flowers similar to *H. paniculata*. Particularly valuable for the brilliant autumn coloring. Does well in the shade or sun. Good for shrub border. 15-18 in., 50c; prepaid.

CRATAEGUS

SCARLET FRUITED THORN—The beautiful scarlet fruits of this tree are very attractive in late fall and early winter. It is a low growing tree, very symmetrical in shape, perfectly hardy. The foliage is always bright and attractive. 2 to 3 ft., 30c each; 2 for 50c; prepaid.

PLANT NOW **BULBS** SPRING BLOOM

TULIPS

Tulips

Early Single Tulips. Bloom several weeks ahead of Darwin.

KAISERKROON—Most popular, showy, bright red with yellow border.

CHRYSOLORA—Large, deep yellow.

FLAMINGO—Carmine rose, flaked with white. Very odd.

95c a dozen; \$6.75 per 100.

Double Early Tulips. Long lasting and showy effects.

MURILLO—White and rose pink, flushed and striped. Most popular.

BOULE DE NEIGE (Ball of Snow)—Pure white.

RUBRA (Maxima)—Brilliant scarlet. Most popular red.

ENGLESCOMBE YELLOW—One of the best yellow.

PRINCESS ELIZABETH—Deep, clear pink. Fine for cutting.

95c a dozen; \$6.75 per 100.

Breeders—They give us the beautiful maroons, bronzes, and browns.

PANORAMA—Orange red, shaded mahogany, with rich lustrous sheen.

LOUIS XIV—Large, rich purple with golden bronze edge. Long stem. One of the very best.

\$1.10 a dozen; \$7.50 per 100.

Darwin—Most popular variety. Very brilliant on tall stems. Long lasting and splendid cut flowers.

CLARA BUTT—Salmon pink, old favorite.

BARTIGON—Brilliant carmine red.

PRIDE OF HAARLEM—Enormous flower, brilliant rosy carmine.

REV. H. EUBANK—Soft violet lavender. Silvery sheen.

CARDINAL MANNING—Mauve and rose. Fine for cut flowers.

BRONZE QUEEN—Buff tinged with apricot.

\$1.00 a dozen; \$7.00 per 100.

ROCK GARDEN TULIPS

CLUSINNIA—Likes a warm, sheltered corner in good soil. Charming, sprightly flower of glistening white with carmine flame on each petal; erect stem 9 to 12 inches, glaucous leaves. Blooms with Crocus. Be sure to try this in your rock garden this year. \$1.50 per dozen; \$10.00 per 100.

BULBS FOR NATURALIZING

The greatest and most effective use of Daffodils and Tulips is to naturalize them. They multiply rapidly. May be used for cutting. Plant this year before the rise in prices. Write for special quotations on large amounts.

HYACINTH

Perhaps the best bulb for bedding. Very fragrant, delicate colors. Also popular for pot plants and may be had in bloom through the winter months with very small effort.

L'INNOCENCE—Best pure white.

QUEEN OF PINKS—Delicate pink.

GRAND MAITRE—Deep porcelain blue.

KING OF BLUES—Rich dark blue.

LA CITORIRE—Brilliant scarlet, early.

Large first size bulbs 3 for 55c; \$1.75 per dozen.

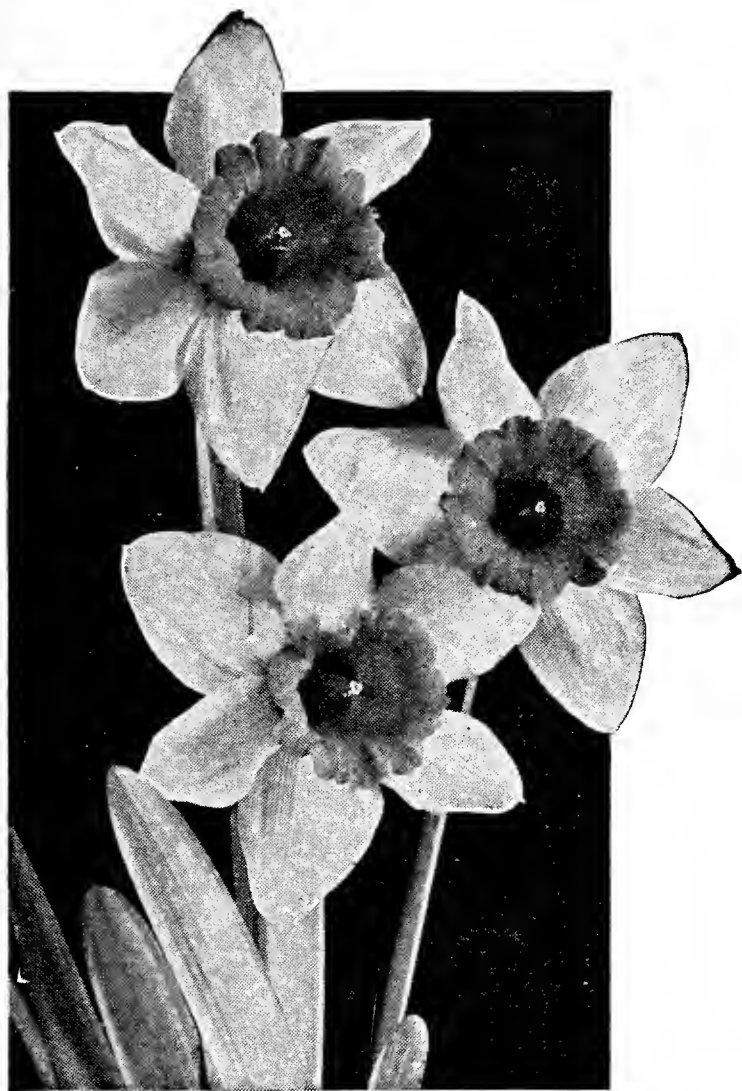

All bulbs prepaid.

WRITE OUR LANDSCAPE DEPARTMENT
FOR ADVICE ON LAYING OUT
YOUR GROUNDS.

Hyacinth

Narcissus

Narcissus

PLANT NOW

These are the first of the large flowering spring bulbs to bloom. They are very effective for naturalizing under trees and in the shrubbery. They are easily grown and remain in the ground year after year.

These varieties are particularly satisfactory.
All Prepaid.

ORANGE PHOENIX (Double Trumpet)—Large double golden flowers. 60c doz.

BARRI HOMESPUN (Medium Trumpet)—Short cup, soft yellow. 60c doz.

POETICUS ORNATUS (Poet Narcissus)—Short cup, pure white, scarlet eye. 60c doz.

EMPEROR (Large Trumpet)—An all yellow variety with a large trumpet and overlapping perianth petals. Early. One of the best. 75c doz.

KING ALFRED (Large Trumpet)—Both perianth and trumpet are a rich golden yellow. Large and well shaped. Flaring trumpet with frilled brim. An old favorite. \$1.00 doz.

LAURENS KOSTER (Poetaz)—White perianth with lemon-yellow cup. Flowers come in clusters on long stems. Best of this type. 60c doz.

Miscellaneous Bulbs for Garden and Rockeries MUSCARI

MUSCARI (Grape Hyacinths)—Charming spring flowers will grow under trees and shrubs, or in full sun. Attractive in rockery. Blue. 12 for 45c.

CROCUS

CROCUS—For every garden. Splendid for naturalizing. White, blue, striped. Mixed 25 for \$1.00; 100 for \$3.00.

LILIES TO PLANT THIS FALL

LILIUM CANDIDUM (Madonna Lily)—This well known and much sought for Lily is considered one of the choicest and one of the easiest to grow. Trumpet-shaped blooms are pure white and borne in spikes on tall, rigid, leafy stems. Bulbs should be planted as early as possible in the autumn. 25c each, 12 for \$2.00; prepaid.

REGALS LILY—One of the most beautiful of all known lilies. It is very hardy and will bloom out doors in June or early July. Mature bulbs produce from 5 to 15 flowers on a single stem which retain their freshness over quite a long period. Price, 3-year-old bulbs, 20c each; 3 for 50c; 12 for \$2.00; 100 for \$15.00; prepaid.

HARDY AMARYLLIS

LYCORIS SQUAMIGERA—The only hardy and fragrant Amaryllis grown. It is a native of Japan, has immense flowers in the fall of a rosy lilac color. The bulbs we offer are strong bulbs that throw 5 to 6 gigantic blooms of the most perfect form. It is easily grown and handled and will prove a pleasure to all planters. It is perfectly hardy and blooms second year. If left undisturbed it will multiply and grow into quite a large mass that will produce a wealth of bloom each year. Price, 75c each; 2 for \$1.25; prepaid.

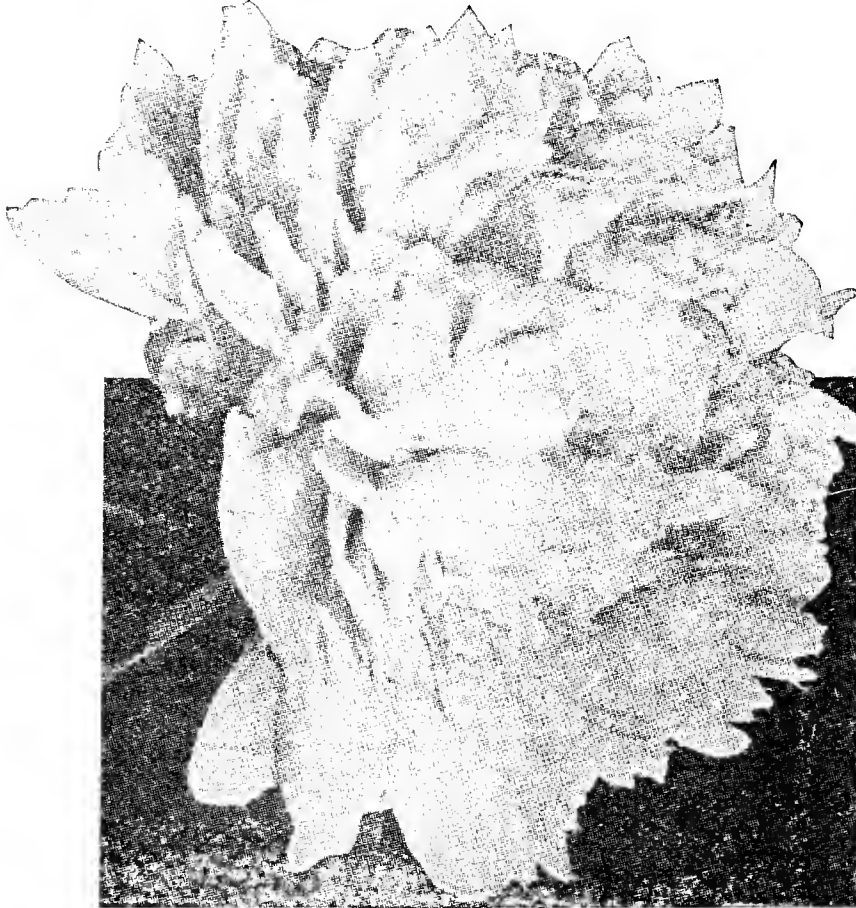

Hardy Amaryllis

Extra PEONIES Choice

Add a Few of the Newer Peonies while Prices Are Down.

FALL IS THE IDEAL TIME TO PLANT.

FESTIVA MAXIMA—Large globular flowers. Pure white flecked with crimson. Extra early. Fine for cutting. 25c.

Festiva Maxima

Magnificent balance of color.
This collection of German Iris.

12 varieties, 1 each—\$1.75 prepaid.

AMBASSADEUR (Vilmorin)—S. bronzy violet, F. dark maroon. Medium tall. Late blooming. 10c.
AMBER (Dykes)—An amber yellow self, with red gold beard. Low growing. 10c.

BRUNO (Bliss 1922)—Exceptional size and quality. S. bronze, tinted and lightened with lavender shading to yellow at base. F. deep rich purple of unusual size and quality. Fragrant, wonderful in bright sunshine. 25c.

DUKE OF BEDFORD (Bliss)—Rich deep violet purple, very velvety and brilliant. Beard orange, stalks low and widely branched. 15c.

FRIEDA MOHR (Mohr 1926)—This is unquestionably one of the finest iris introductions and will be for years to come. It is an exquisite pink bi-color, with pale lilac pink standards and deep lilac rose falls. We strongly recommend it to our customers. 50c.

HARRIET PRESBY (Presby)—A very tall light rosy violet. Late. Fragrant. 10c.

LORD OF JUNE—S. palest lavender, F. rich aniline blue. Bi-color. 15c.

MORNING SPLENDOR (Shull 1922)—Deep rich large red violet. Fragrant. 36 in. 10c.

SEMINOLE (Farr)—A brilliant velvety light red purple with a conspicuous orange beard. 30 in. 10c.

SUSAN BLISS (Bliss)—Rosy lilac pink with orange beard. Blooms freely and the color carries well. Late and tall. 10c.

MME. GAUDICHAU—S. violet, F. Brilliant blackish purple. Dark velvety bi-color of fine shape, finish and exceptional substance. Fragrant. 36 in. 10c.

SNOW WHITE—A pure white of exceptionally fine form. One of the very best for mass effect. 15c.

All prepaid

MONS. JULES ELIE—A gorgeous peony of enormous size. Glossy lilac-pink shading to a deeper rose. The entire flower overlaid with a silver sheen. An old favorite and one of the best. 25c.

BARONESS SCHROEDER—Late. White with shadings of flesh. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant. 45c.

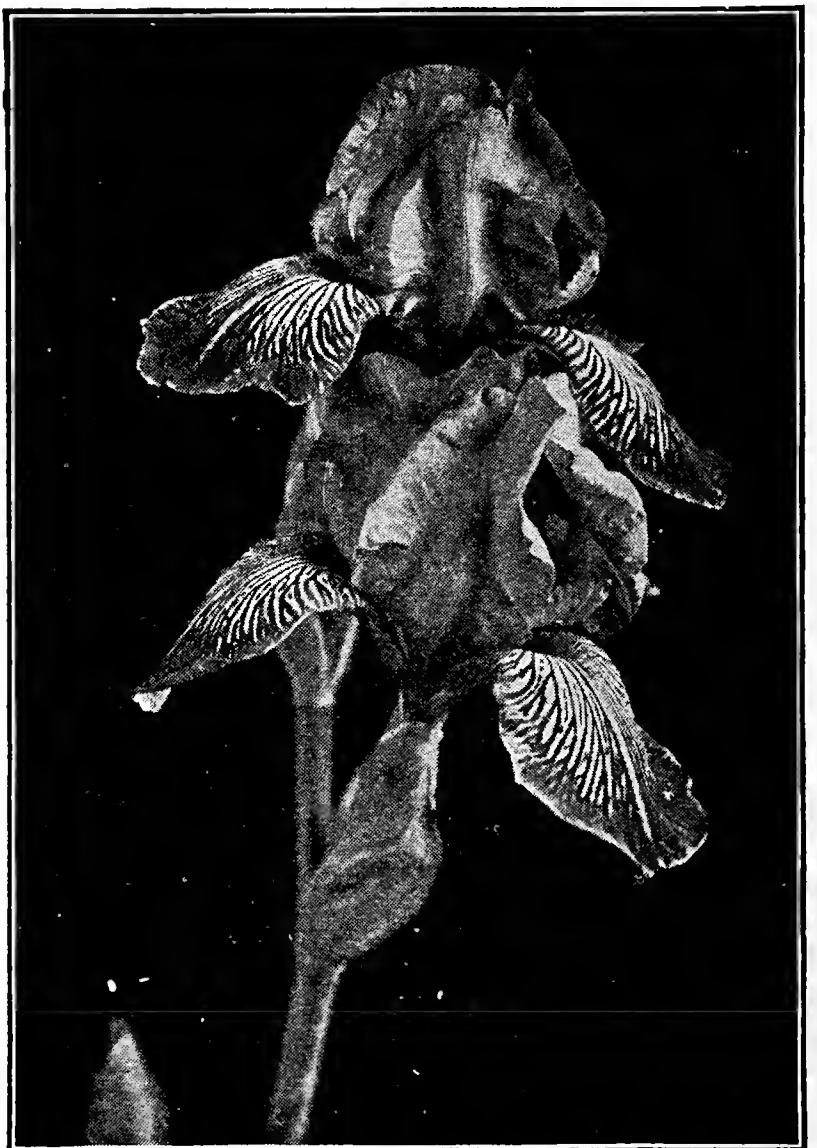

LE CYGNE—Very large, perfectly formed flower, freely produced; cream-white with a touch of green at the heart. The finest white. 75c.

FELIX CROUSSE—Very brilliant red. Medium to large, globular, typical bomb shape, fragrant; strong growth, mid-season. 25c.

THERESE—A most desirable variety of charming shade of violet-rose, changing to lilac-white. Develops a high crown; strong grower and very free bloomer. A splendid addition to the mid-season sorts of which it is one of the best. 50c.

KARL ROSENFELD—Very large flower; globular, semi-rose type. Extremely vigorous grower, tall, and free-flowering. As an early red it has no equal. 25c.

The above 7 varieties highest rating and favorite peonies. All prepaid \$2.40.

Iris Frieda Mohr

HARDY PERENNIALS

Price, 15c each; 3 for 40c; \$1.50 per dozen; prepaid, except where noted

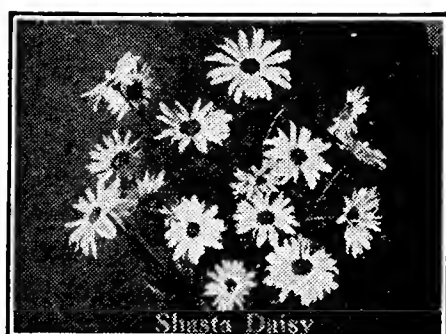

ALL PLANTS FIELD GROWN

BLOOM FIRST YEAR

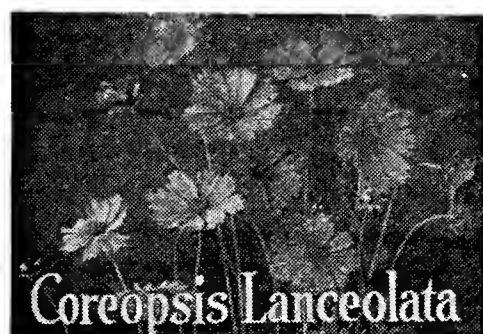

The most successful and brilliant hardy gardens are planted early in the fall or early spring. These charming plants with only a small amount of care, grow finer and larger from year to year. If possible plant in masses for colorful effect.

Columbine

Shasta Daisy

Coreopsis Lanceolata

AQUILEGIA—COLUMBINE

(Dobbie's Mixed)—Special selection of many delicate and new shades, and with very long spurs.

(Copper Queen)—New. All shades of yellow and copper.

(Mrs. Scott Elliott)—Hybrids. Lovely blending of pastel shades. Mixed plants.

Rocky Mountain—Compact lustrous foliage with a light blue tint. Double violet blue flowers produced freely. Very good for the rockery.

AGROSTEMMA CORONARIA (Mullein Pink)—Bright rosy crimson. 2½ to 3 feet high.

ARTEMESIA

SILVER KING—A striking white-leaved contrast plant. A beautiful "mist" for setting off bouquets and floral combinations. The entire color effect bright frosted silver. Three feet high. Sprays may be cut to mix with winter bouquets.

ASCLEPIAS (Butterfly Weed)—A native plant making a delightful show of orange flowers during early summer.

ASTER (Climax)—Very showy. Tall spikes, large, light lavender-blue flowers. September.

ASTER (Stokes)—Handsome lavender-blue centaurea-like blossoms, succeeding in any open, sunny position.

BAPTISIA AUSTRALIAS (False Indigo)—Attractive dark green foliage, dark blue pea-shaped flowers produced in June on top of spikes, 2 feet high.

BOCCONIA CORDATA (Plume Poppy)—Six to eight feet, immense flat, deeply indented leaves of silvery green on pearl-pink stalks. Flowers creamy white, produced in large, upright panicles, which persist for months, darkening to rusty bronze.

CATANANCHE COERULEA—Deep blue flowers on long stems. Excellent cut flowers—July to September.

CENTAUREA

MONTANA (Perennial Cornflower)—2 feet high, bears large violet blue flowers. July to September.

DEALBATA—Large and striking rose pink flowers. June to July. 2 feet high.

MACROCEPHALA—Large thistle-like golden yellow flowers. 3½ feet high. Useful for cutting and showy in borders. July to August.

CALLIRHOE—Poppy Mal-low—Prostrate plants with brilliant flowers; for the rock garden or on the margin of dry borders. Blooms all season.

CEREOPSIS

LANCEOLATA—Valuable border plant, because of their profusion of showy yellow, hardy and of the easiest culture. One to two feet. June to September.

DAISY SHASTA

ALASKA—A splendid form of the Shasta Daisy. The whole plant is gigantic, but compact and graceful; flowers white, four and five inches across. Very free flowering; small yellow discs. Good for cut flowers.

DELPHINIUMS—IMPORTED STRAINS

WONDERFUL HYBRIDS—Newest, the best and finest anywhere. Color varies from the palest shade of blue to the deepest indigo blue and royal purple with many intermediary pastel tones of mauve, pink, and lavender blendings. Among these are flowers of huge size in both single and double forms.

BELLADONA—A sky-blue variety. June to October.

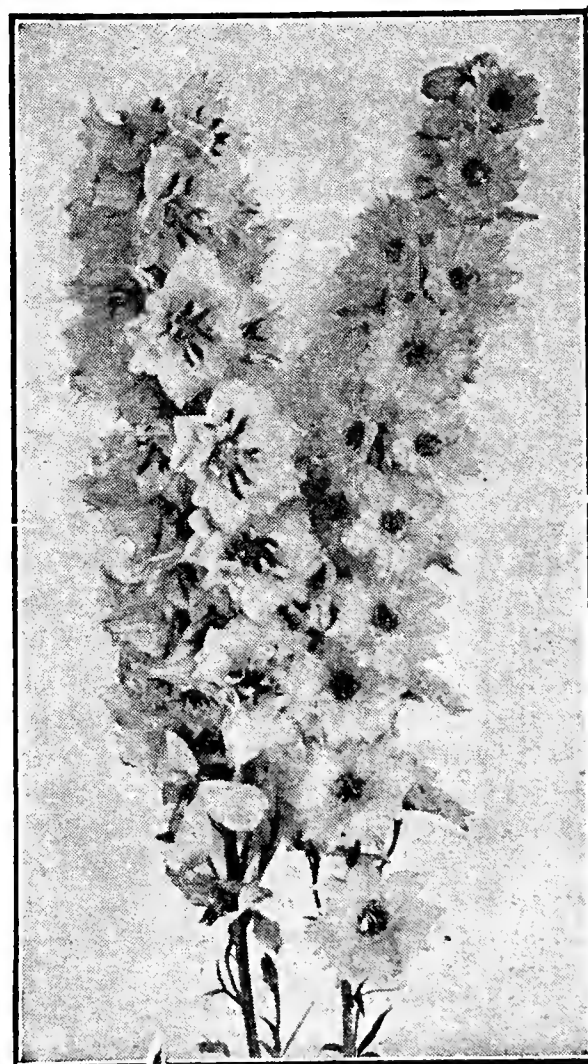

FORMOSUM—The old favorite dark blue with white center.

WREXHAM STRAIN—Single and double, range of color varies, includes pale blue, royal purple, pastel shades of pink, mauve and lavender. Our best. Price, 20c each; 3 for 50c.

QUEEN-OF-THE-BLUES (Chinese Larkspur)—A very pretty variety with fine feathery foliage and intense blue flowers.

GRASS

ELYMUS GLAUCUS (Blue Lime Grass)—Handsome Grass with narrow, glaucous silvery foliage. Well adapted for the border or edge of beds with taller sorts.

Delphinium

PERENNIALS

Price, 15c each; 3 for 40c; \$1.50 per dozen; prepaid, except where noted

DIANTHUS BARBATUS (Sweet Williams)—One of the loveliest of old fashioned flowers. Profuse bloomers. Splendid for cutting. White, pink, and red.

DIANTHUS PLUMARIS (Old Fashioned Clove Pinks)—Pink and white, fragrant flowers on long spikes. Handsome, glaucous green foliage. For border.

DICENTRA—SPECTABILIS BLEEDING-HEART—The Bleeding-heart is one of the choicest memories of the old-fashioned garden. Price, 35c each; 3 for \$1.00; prepaid.

CHINESE LANTERN PLANT

FRANCHETTI—Forms dense bushes 2 feet high, producing bright orange scarlet lantern-like fruits, which are very interesting for indoor decorations.

FUNKIA DAY LILY—SUBCORDATA—Large pure white day lily, fragrant flowers, blooms August and September.

FUNKIA COERULEA—Broad green leaves, blue flowers. July to August.

GAILLARDIA—BLANKET FLOWER—Improved giants. Bloom crimson daisy with lovely shades orange and golden yellow. Blooms all summer.

GYPSOPHILA or BABY'S BREATH

PANICULATA—Branching or spreading slender perennials and very desirable, misty white bloom.

HARDY AGERATUM—A pretty, hardy plant, with light purple flowers, in flower from August until frost. 12-24 inches. Good cut flower.

HELIANTHUS—MISS MELLISH—An improved variety of Helianthus, profuse bloomer. Yellow.

HELIOPSIS—Orange Sunflower—Flowers on long wiry stems. Good for cutting.

HEMEROCALLIS

FLAVA (Yellow Day Lily)—Popular hardy plants; belong to the Lily family. Succeed everywhere, should be included in the border of old-fashioned hardy plants.

FULVA—Coppery orange shaded to crimson. 3 feet. Blooms in July.

HOLLYHOCKS—Immense flowers; all shades and colors mixed.

HIBISCUS (Mallow Marvels)—A robust type of upright habit, producing an abundance of flowers of enormous size in the richest shades of crimson.

FLOWERING FLAX (*Linum Perenne*)—Very attractive both in foliage and bloom. Pale blue on slender, graceful stems.

LILY-OF-THE-VALLEY—Very small and sweet and dainty, the creamy white scalloped bells pendant along slender stems. They make up (with their broad shiny leaves) into dainty bouquets of fragrance. They spread actively from the roots and soon reclaim shaded cold ground which otherwise would be cheerless and barren. 3 for 25c.

LYCHNIS CHALCEDONICA (Maltese Cross)—Heart-lobed stars of brightest vermillion, arranged in large flat panicles.

LYTHRUM (Purple Loosestrife-Roseum)—Showy rosy purple spikes produced in profusion all summer.

MERTENSIA—BLUE BELLS (*Virginica*)—An early spring flowering plant, 1 to 1½ feet, with blue flowers overlaid with pink. One of the loveliest spring flowers we have.

MONARDA (Oswego Tea)—Showy plants growing from 2 to 3 feet high, succeeding in any soil or position, with aromatic foliage, and producing their bright flowers during July and August.

PENSTEMON—BARBATUS TORREYI (B)—June to September. A very valuable late flowering variety with beautiful bright flowers.

PENSTEMON ACUMINATUS—Glaucous foliage. Flowers long, lilac to violet.

PENSTEMON GLABRA (Rosea)—Pretty strain of dwarf variety, flowers pink to rose.

OENOTHERA—EVENING PRIMROSE (*Missouriensis*)—Low growing. Blooms all summer. Firm shiny foliage, bright lemon-yellow flowers, June to August.

POPPY (Oriental Poppy)—One of the most striking flowers of the perennial border. After blooming in June the plants die down and disappear, making roseettes of foliage in late fall, and stay green all winter.

PYRETHRUM OR PAINTED DAISY (Roseum)—Attractive fern-like foliage. Rose colored flowers, good for cutting. Bloom May and June. Single and double.

Sweet William

Plantain or Day Lily

Gaillardia

Yellow Day Lily

Hardy Hibiscus

PERENNIALS

3 for 40c; 12 for \$1.50; except where noted.

LIATRIS (Blazing Star) Pycnostachya—Grows in poorer soil than most plants; requires no special attention. Will attract because of its unusual appearance; beautiful as well as odd. Midsummer. Long spikes of rich rose purple flowers attractive to butterflies.

False Dragon Head

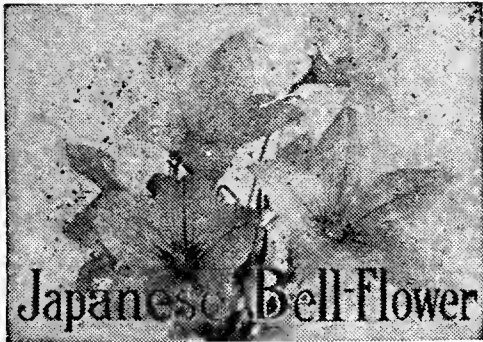

PACHYSANDRA—Japanese Spurge—Trailing plants 6-8 inches high, forming broad mats of bright glossy green foliage. A ground cover, which will grow in all shady situations. May be used under all evergreen plantings, shrub plantings, for bordering walks and drives, for steep terraces in sun or shade, under any kind of trees.

PHYSOTEGIA VIRGINICA (False Dragon Head)—A unique and attractive American plant that stands apart from all other hardy plants. Begins to bloom about the first of July and if kept cut, will flower more or less for about three months. Pink or white.

PLATYCODN (Japanese Bell Flower)—A valuable perennial forming a dense branching bush of upright habit. One to two feet with neat foliage. It blooms from July until frost. Large bell-shaped, deep blue flowers.

RUDBECKIA (Golden Glow)—Hardy. Six feet high, masses of large, double golden yellow flowers, shaped like a Cactus Dahlia.

GIANT PURPLE CONEFLOWER—Most attractive purple flowers, with a very large, brown, cone-shaped center. Blooms from July to October. Three feet high; a splendid plant for the border.

Japanese Bell Flower

SEDUM SPECTABILIS (Stonecrop)—A very pretty, erect growing perennial attaining a height of eighteen inches. It has broad light green foliage with immense heads of handsome showy rose colored flowers. Indispensable as a fall blooming plant.

SEDUM (Brilliant)—A richly colored form of the preceding, being a bright amaranth-red.

SEMPERVIVUM—Brauni—Large rosettes, bronze green leaf with almost red tip. **Globiferum**—Flattened rosettes, grey green leaves tipped brown, pale yellow flowers. **Tectorum**—Broad rosettes, reddish brown tips, flowers pale red. Old fashioned variety.

SCABIOSA (Mourning Bride)—Valuable cut flowers. Large showy flowers on long stems. Like full sunny location. Lovely soft lavender. June to September.

Rudbeckia

SALVIA (Meadow Sage)

Nemerosa—Deep violet. August and September.

Turkesetanica Rubra—Very distinct and unusual variety. The flower spikes are lightly tinged with a reddish pink.

STACHYS LANATA—Old fashioned garden plant, soft silvery foliage, good for edging.

TEUCRIUM CHAMAEDRYS—Dark green glossy foliage. May be used in place of Boxwood for edging. May be clipped any height up to 10 to 12 inches. Best in full sun.

TRITOMA (Red Hot Poker)—It will bloom the first season sending up tall flower stems on which are borne the great blossoms of bright red.

VERONICA SPEEDWELL (Elegans)—Showy plants of easy culture. Erect growing. Pink flowers.

(Spicata)—Fine for hardy border. Long spikes of violet blue flowers. July and August.

YUCCA (Adam's Needle) Filamentosa—Effective and striking for isolated positions on the lawn. Indispensable for the rockery. Its broad, swordlike, evergreen foliage and immense branching spikes of drooping creamy white flowers, rising to a height of six feet, render it a bold and handsome subject wherever placed. Should be planted in spring. 25c each.

YUCCA VARIEGATED—A very striking Yucca with yellowish striped leaves. A distinct novelty. Price, 2 yr. old, 35c each; 3 for \$1.00, prepaid.

Mourning Bride

Tritoma

SPECIAL

2 dozen perennials—8 varieties—our selection; prepaid for \$2.00.

Rock Garden Plants

PLANT NOW FOR EARLY SPRING BLOOM

Prices, 15c each; 3 for 40c; 12 for \$1.50; prepaid

Plant perennials early this fall. Protect with a light mulch late in season. You will then have early bloom next spring.

ACHILLEA PERRY WHITE—Showy rock perennial. Large pure white flowers, broad overlapping petals. Fine for cutting.

AJUGA—Useful plant for rockery—particularly shady positions; bronze foliage; blue flowers and most compact.

ALYSSUM—SAXATILE (Compactum)—Broad masses of brilliant yellow flowers in very early spring. Excellent for rockery and front of border.

ANCHUSA (Myosotidiflora)—Dwarf plant, blue flowers resembling for-get-me-nots. May and June.

ANTHEMIS CHAMOMILE (Tinctoria)—Handsome, finely cut foliage, and large golden yellow flowers produced all summer. Succeeds in the poorest soil.

ASTER (St. Ewgin)—A pleasing rosy pink; very free blooming; dwarf habit. September.

CAMPANULA CARPATICA (Harebell)—A pretty species growing in compact tufts. Flowers clear blue, held erect on wiry stems. Blooming from June until October.

CERASTIUM TOMENTOSUM (Snow in Summer)—Low growing plant with silvery white foliage and snow white flowers in May.

CHRYSANTHEMUM (Korean)—Newer Perennials. For late fall effects nothing can equal. Large white flowers with golden center often turning to shell pink.

DIANTHUS DELTOIDES (Maiden Pink)—A pretty little ground cover plant of deep green foliage from which in May and June myriads of small crimson flowers arise.

DIANTHUS ARENARIUS (Sand-Loving Pink)—Flowers white with carmine ring, deeply fringed and fragrant. Excellent for dry hot places. 6 inches.

GARDEN PINKS—A fine collection in various colors. Old fashioned "pinks" found in Grandmother's garden. Of dwarf habit. Foliage is attractive throughout the year.

DICENTRA EXIMA (Dwarf Everblooming Bleeding Heart)—Compound racemes of deep rose. Foliage is especially attractive and bloom persistent all summer.

ALPINE SNOWFLOWER (Edelweiss)—This alpine beauty is well known to tourists who have traveled in Switzerland. Should be grown either on the rockery or in well-drained, sandy soil. Low growing with silvery white leaves, star-like flowers covered with white wool.

EUPHORBIA MYRSINITES—Prostrate. Handsome bluish foliage, crowded heads of yellow flowers surrounded by bracts. You will want one in your rock garden. 20c ea.; 3 for 50c.

HEUCHERA (Coral Bells)—Heart-shaped leaves, dainty bright red blooms in graceful sprays. Excellent for cutting. Sunny position.

CANDYTUFT (Hardy)—Hardy form of old-fashioned Candytuft, growing 8 to 10 inches in height with dense heads of bright flowers early in the spring. Full sun or part shade.

LYCHNIS (Alpina)—Dwarf, rose-pink. A charming little plant for the rock garden, about 4 inches high.

PHLOX SUBULATA (Rosea, Moss Pinks)—Moss like evergreen foliage, prolific blooms invaluable for the rock garden.

SCUTELLARIA—SKULL CAP (Coelestina)—Short, wiry stems, one foot high, clothed with clear, blue snapdragon-shaped flowers during July and August; a very good plant for the rock garden.

SEDUM (Dwarf Varieties)

ACRE (Golden Moss)—Much used for covering graves, foliage green; flowers bright yellow.

ALBUM—Dwarf and spreading; thick, waxy round foliage, white flowers; good rock plant.

SPURIUM COCCINEUM—A beautiful rosy crimson flowered form; July and August. 6 inches.

SPECTABILE—Erect growing, 18 inches, with broad, light green foliage and immense heads of handsome, showy, rose colored flowers; indispensable as a late fall-blooming plant.

SEMPERVIVUM (Hen and Chickens)—Succulent plants of rosette like thick leaves, spreading habit. Very interesting.

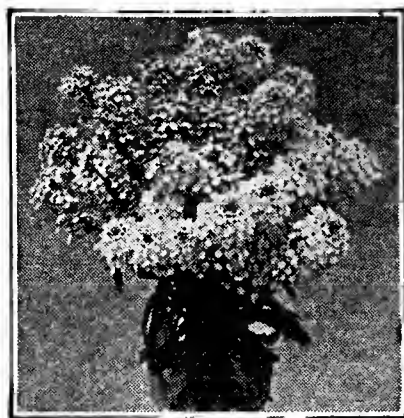

VERONICA (Royal Blue)—Beautiful spikes of rich gentian blue flowers. One of the best for the rockery; 8 inches; June and July flowering.

HARDY VERBENA—A silvery leaved trailing plant. Producing clusters of bright pink flowers. Good for Rock Garden or wall.

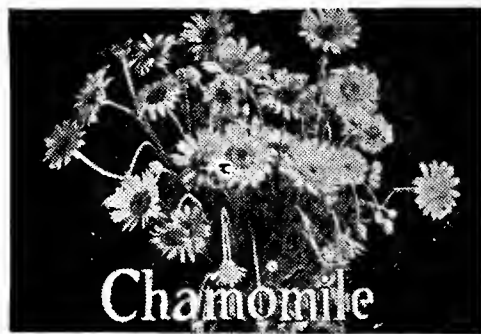

VIOLA CORNUTA (Hardy Pansy)—Very attractive plants, easy culture. Good selection of blue, yellow and blue and white. If kept from going to seed, will bloom until early winter.

VIOLA APRICOT—Beautiful apricot shade, tinted orange near center. Free bloomer.

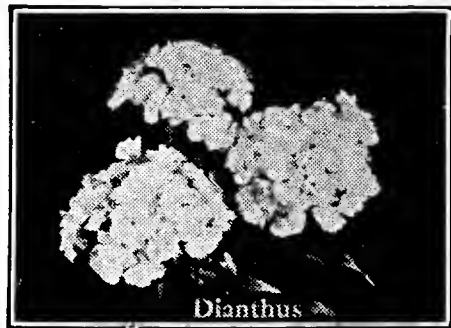

VERBASCUM PHOENICEUM—Leaves somewhat blue. Flowers are borne in branched spikes. Colors mixed, including white, pink, rose, purple. Good in group plantings.

Chamomile

Dianthus

Hardy Pansy

Edelweiss

Rock Garden Evergreens

PREPAID—LOW PRICED—FIELD GROWN

Evergreens on this page will be shipped to you by parcel post. They will be wrapped in waterproof paper and be strong and with a good root system. They should grow rapidly. The sizes offered on this page are by far the best sized evergreens to plant as they will all grow quickly and develop into fine specimens.

AMERICAN ARBORVITAE—A very good tree for grouping or for formal planting. Very quick grower and can be trimmed to any desired height or shape. Makes fine hedges. Will endure shallow soil. 10-12 in., 30c each.

CHINESE ARBORVITAE—A pyramidal tree of very compact form. Foliage is bright green and fine for foundation planting. 10-12 in., 30c each; 4 for \$1.00.

ELEGANTISSIMA ARBORVITAE — Pyramid or bushy tree; branches near the base, bright yellow in the spring and yellow green in the summer. 10-12 in., 30c each.

SIBERIAN ARBORVITAE—Very handsome dark green variety. Grows naturally conical in shape. Good for foundation planting and is a very strong and sturdy grower. 10-12 in., 30c.

GLOBE ARBORVITAE—A low-growing form of the Arborvitae of very dwarf habit. Grows naturally in dwarf shape. 8-10 in., 30c each; 4 for \$1.00.

BIOTA NANA AUREA—Commonly known as the Golden Chinese Arborvitae. It is a beautiful, compact, little Evergreen of a dwarf nature. It has a clear, yellow color in the springtime which gradually gives way to a yellowish-green during the winter months. Its size, color, compact habit of growth and foliage make it especially desirable for rockeries. 10-12 in., 40c.

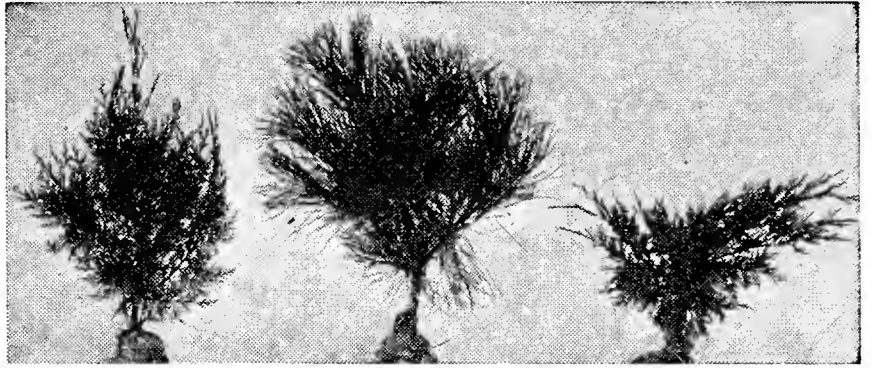

MUGHO PINE (Dwarf Mountain Pine)—Dark brown branches, bright green leaves, stout, broader than it is high, forming a dark, dome-shaped bush. Will resist smoke and gas in city atmosphere better than some other varieties. 8-12 in., 35c.

JUNIPER PFITZERI—A Chinese type of Juniper which makes a broad Evergreen with horizontally spreading branches. Grows from 4-5 feet high and has plume-like branches. Are very pretty. Will thrive in hot, dry locations; also endures extreme low temperature. 3-year-old plants, 8-10 in., 35c each; 3 for \$1.00.

JUNIPER SABINA—A low growing, wide spreading, thickly branched, dark green Evergreen that must be seen to be appreciated. 8-10 in., 35c each; 3 for \$1.00.

BAR HARBOR (Creeping Juniper)—Very rugged, beautiful greenish blue color. Splendid for border to taller trees. Suitable for ground covers, sandy banks, terraces, and around pools. 10-12 in., 35c; 3 for \$1.00.

MEYERII—Choice and rare novelty of unusual color and merit. Leaves are pointed and prickly, bright shining blue color, appear to be of different colors at various angles. Has distinct tones of green, pinkish red, and white. Grows in irregular form. Ideal specimen for rockery or around pool because of unusual color and shape. 8-10 in., 40c.

Chinese Arborvitae 10 to 12 in., 30c Scotch Pine 8 to 10 in., 30c Juniper Pfitzeri 6 to 8 in., 35c

JUNIPER DEPRESSA PLUMOSA—Low growing Evergreen. Grows 2 to 3 feet in spread and 18 inches high. Dark green foliage and very fine. Especially suited to rockeries. 8-12 in., 35c.

TAXUS—Waxy, shiny, green foliage of low, irregular and picturesque outline. Thrives in dense shade. Very hardy. Will resist smoke and gas in city atmosphere better than some other varieties. 35c each; 3 for \$1.00.

JUNIPER STRICTA—Glaucous blue color, close growing, even branching habit. Good formal tree of dwarf size. 8-10 in., 35c each; 3 for \$1.00.

JUNIPER CONSPICUA—Dwarf habit, leaves are sharp pointed, gray green color, silvery white beneath; very good in rock garden. 8-12 in., 45c each; 3 for \$1.15.

SWEDISH JUNIPER—Dwarf variety, grayish green, prickly needles. Grows close and compact. 8-10 in., 30c each; 4 for \$1.00.

JUNIPER WAUKEGAN GREEN—Foliage scale-like or whipcord, contrast to the prickly needle-shaped foliage of some other creepers, color dark green. 35c each; 3 for \$1.00.

JUNIPER WAUKEGAN BLUE—Similar to green; unique because of color. During summer months it is of a soft blue. During winter it takes on a silvery purple or pinkish shade giving a color combination not found in any other tree of this type. 35c each; 3 for \$1.00.

OUT DOOR CHRISTMAS TREE—Plant now and in a few years you will have a nice big tree for decorating and lighting up for Christmas cheer that all can enjoy. Something that every home should have.

We recommend Norway Spruce, White Spruce or Douglas Fir. 18-24 in., 60c each, prepaid.

To Plant**

No home or farm, large or small, can afford to neglect planting fruit trees each year. They are profitable, beautiful, healthful, and will pay big dividends. Will endure shallow soil.

J. H. Hale

PEACH TREES

It is well to plant a good assortment of early, medium and late varieties, thus insuring a long season of delicious fruit for canning, table or for market.

ELBERTA—The old reliable peach, of which more are planted and from which more money has been made than from any other variety. The fruit is extra large; golden yellow, with brilliant shades of red; firm, juicy, rich and sweet. In fact it is the most popular of all the freestones, and hardy; thrives in widely different localities.

GOLDEN JUBILEE—A new large, early, yellow Peach. It ripens three weeks earlier than Elberta and is of better quality. The skin is yellow blushed with red; flesh yellow, juicy, tender, sweet, freestone. You will want at least a few of these trees in your orchard or fruit garden. 3-4 ft., 50c; 3 for \$1.40; 10 for \$4.00; prepaid.

CUMBERLAND—One of the new early peaches recommended by the Ohio State Experiment farm at Wooster. The fruit is highly colored; firm and of excellent quality.

J. H. HALE—This remarkable peach, discovered as a chance seedling, by J. H. Hale, is a wonderfully fine peach, magnificent in appearance and delightful in flavor. The tree is enormously productive and the fruit is of larger size than the Elberta. Color a deep, golden yellow overlaid with bright carmine. Smooth, solid, thick skin, a peach without the fuzz, absolutely distinct in this respect, it stands in a class alone.

SOUTH HAVEN—The great hardy peach for cold regions stands 10 degrees colder weather than any other peach grown. Large, yellow, freestone. Large as Elberta and a week earlier on the market. Of all peaches for markets, this rules supreme.

Height	Each	3 Trees	10 Trees

AN ORNAMENTAL TREE FOR A CITY LOT

ABUNDANCE—One of the best Japanese plums, bears young, rich bright red with light yellow flesh, excellent quality.

GERMAN PRUNE—One of the oldest varieties. The tree is vigorous in growth and productive. Large, purple fruit that is firm, sweet, and delicious. A freestone. September.

GREEN GAGE—Fine variety for canning. Fruit is large, roundish oval, greenish yellow, spotted with red; flesh yellow, juicy, rich, of finest quality.

MOORE'S ARTIC—Purplish black plum with a thin bloom. Small to medium; flesh juicy, sweet and fine flavored. Healthy, regular and abundant bearer. August.

IMPERIAL EPINEUSE—A reddish purple prune plum outstanding in rich flavor. Stone semi-free. Finest quality.

PEAR TREES

BARTLETT—One of the most popular sorts, both for home and market. Has large, handsome, waxen yellow, with red blush; flesh buttery, rich and juicy, highly flavored for canning. Ripens in August and September. Special price on Bartlett pears.

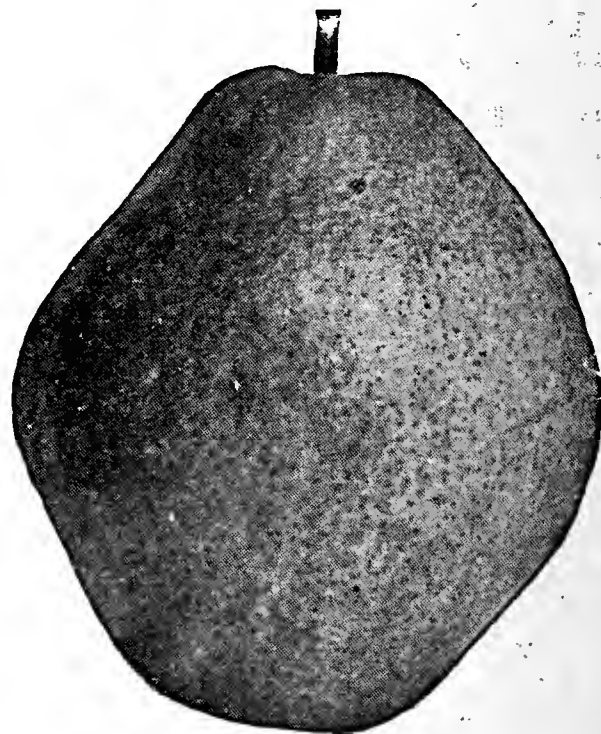

DUCHESS D'ANGOULEME—Very large, yellow; makes a beautiful tree, a heavy bearer; flavor, melting and sweet. A dependable cropper and good market sort.

KIEFFER—On account of the excellent keeping qualities it is one of the best and most profitable market varieties. The trees are not troubled with scale and seldom fail to bear a good crop. Trees bear young. October and November.

SECKLE—This well known little pear has attained the rank of standard in quality on account of its rich delicious flavor; very popular for dessert. August and September.

Apples—King of Fruit

YELLOW TRANSPARENT—The earliest summer apple. Money maker of summer apples. Always brings the best prices.

GRIMES GOLDEN—The best and most widely planted yellow apple. Early. Fruit is of medium size, tender, rich, aromatic, sub-acid, good for eating raw or cooking.

JONATHAN—A general favorite. Medium sized apple, brilliant red; very highly flavored, juicy, fine grained, tender, mild, sub-acid. Quality is fine for home use and for marketing.

BALDWIN—No variety yields larger crops or stands shipment better, is more attractive in color, size and shape than the Baldwin.

ROME BEAUTY—A money maker for growers all over the country. No orchard should be without this apple. Large, mottled and striped in different shades of red.

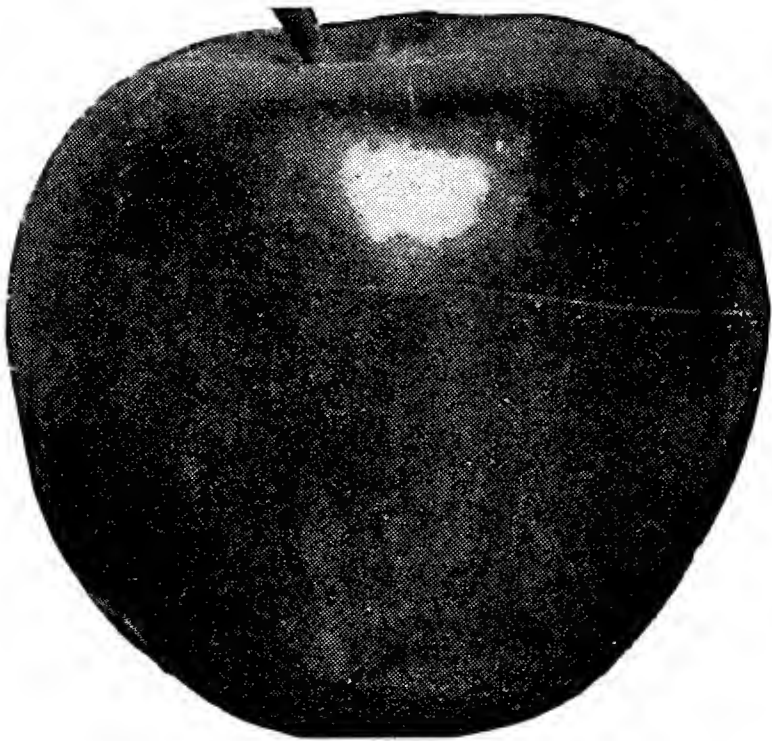

GALLIA BEAUTY NEW—Like Rome Beauty in every particular except color. Solid red in color. Is being planted extensively for roadside market use.

WEALTHY—This beautiful, moderate sized, brilliant red apple is of fine quality, one of the best of its season. Owing to the hardiness of the tree, and early bearing habits, it can be profitably planted.

WHITNEY CRAB APPLE—This is the largest and best for jellies. Good grower, very productive. Bright yellow striped with red, flesh crisp, juicy, and sub-acid. August to September.

Height	Each	3 Trees	10 Trees
3-4 ft.	\$0.60	\$1.70	\$5.00
4-5 ft.	0.75	2.00	6.00

2-3 ft. bundle of 5 trees \$1.65; all prepaid.

Red Rome Beauty

Quince

ORANGE—Large, round, bright golden yellow. Excellent flavor. An abundant bearer, good for market. One of the best late varieties.

CHAMPION—Bears early. Fruit is large, oval, rich color, and excellent quality. Ripens late and keeps well. By express, prepaid, 3-4 ft., each 75c; 2 for \$1.40.

Hardy Apricot

A real hardy Apricot. Imported from Hungary a few years ago. Comes into bearing very young and seldom misses a crop. Quality of fruit is excellent and good sized. Beautiful in bloom and when tree is in fruit. Now offered for the first time. Prices, 3-4 ft., 65c; 2 for \$1.20; prepaid.

CHERRY TREES

Our cherry stock is the best selected varieties and as fine as can be produced. They are all budded on Mahaleb stock, which makes the best and earliest bearing trees.

SOUR CHERRY

Height	Each	3 Trees	10 Trees
3-4 ft.	\$0.40	\$1.10	\$3.50
4-5 ft.	0.55	1.50	5.00

2-3 ft. bundle of 5 trees \$1.25; all prepaid.

EARLY RICHMOND—Old favorite, very hardy, sour, good for cooking.

MONTMORENCY—Beautiful Red Cherry; larger than Early Richmond; about two weeks later. Good producer; best for shipping.

SWEET CHERRY

Height	Each	3 Trees	10 Trees
3-4 ft.	\$0.50	\$1.40	\$4.50
4-5 ft.	0.65	1.85	6.00

2-3 ft. bundle of 5 trees \$1.50; all prepaid.

BRASSINGTON—Earlier than Montmorency, very productive; mild, good size. One of the better new cherries.

GOVERNOR WOOD—The standard of quality among the sweet cherries. The large, light red fruit hangs well on tree and does not rot easily. The fruit buds are hardy and the tree is a stout healthy grower, and an abundant bearer. June.

YELLOW SPANISH—Large, handsome, sweet cherry with light red cheek, firm and delicious. Tree vigorous in growth and productive. Late June.

PLANT NOW

GRAPES

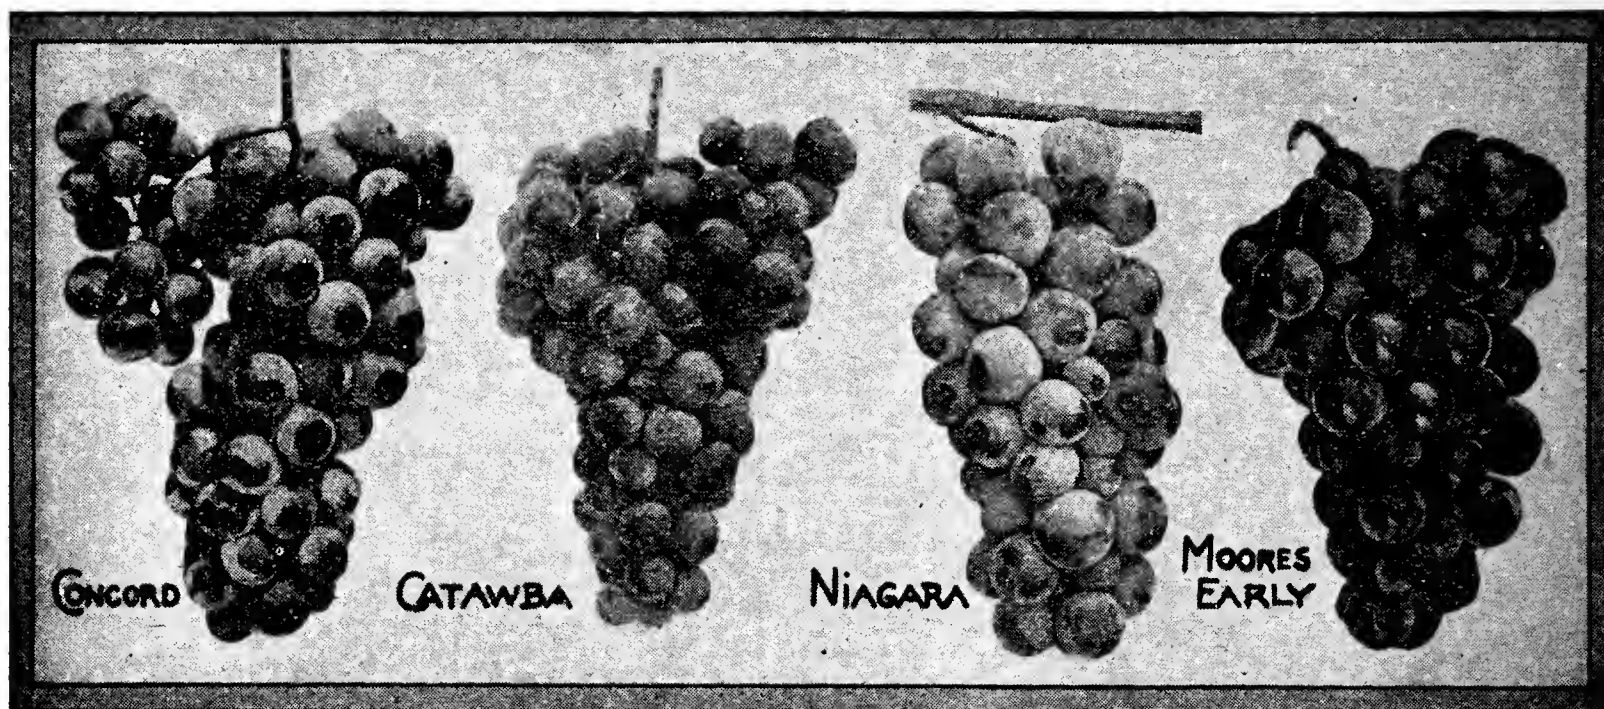

FOR PROFIT

ALWAYS DEPENDABLE

BEST PAYING CROP PER ACRE

Fall is the best time to plant Grapes. They start in the early spring and you practically gain a year by fall planting.

One of the most satisfactory crops grown as it can be depended upon practically each year, and can be grown almost anywhere. The market for grapes is far greater than the supply, and any one wanting to plant an acre or so will find them a profitable crop. Write for quotations in large quantities.

OUR LOW PREPAID PRICES ON TWO YEAR GRAPE VINES

	Each	5	10	25	100
Two Year Old Plants	\$0.20	\$0.90	\$1.75	\$4.00	\$15.00

Write for Special Prices on 1,000 lots

AGAWAM—Deep red or maroon. Large and firm, strong and healthy grower, loose bunches.

NEW GRAPE CACO—The vines are strong and vigorous. The fruit is very large; in color a rich wine red over amber. Early bearing, usually showing several good sized bunches the second year. Its flavor is luscious, sweet, delightful, distinctive: Price, 40c each; 3 for \$1.00.

CONCORD—From sheer merit the Concord has become the most popular grape in the United States. Taking the country as a whole, more Concords are now in bearing than any other variety.

MOORES EARLY—Most reliable, very early variety, immensely profitable to commercial growers. Medium bunch, berry large, jet black.

NIAGARA—The standard white grape. Both bunch and berries are large to very large, handsome, and well formed.

WORDEN—A black grape, high quality, and ripens earlier than Concord. Large bunches.

ASPARAGUS PLANTS

WASHINGTON—A new rust resistant pedigreed Asparagus. As a standard variety for the production of fancy Asparagus for home or market, it stands ahead of all others in size, vigor, tenderness, and quality. At Low Prices: 25 for \$1.00; 100 for \$2.00; 1,000 for \$12.50; prepaid.

RHUBARB

MYATT'S LINNAEUS—Leaf stalks long, large, tender, juicy, early. Cellar-grown rhubarb with beautiful pink, tender stalks may be enjoyed in March by anyone who will devote a little time to it. Price, 10 for 85c; 100 for \$7.50; prepaid.

RASPBERRIES

CUMBERLAND RASPBERRY—The largest of all blackcaps; firm and a good shipper, and one of the most profitable as a market berry. Price, \$1.25 per 25; \$3.50 per 100; prepaid.

LATHAM—Has proved to be the very best of all the everbearing sorts, for most sections. Splendid, strong growing kind produces immense quantities of bright red extra large berries. Price, 25 for \$1.25; 100 for \$3.50; prepaid.

CHIEF—New variety. Ripens earlier than Latham, greater hardiness, more disease resistant, bears more abundantly. Fruit bright red, somewhat smaller than Latham. One of the most profitable. Price, 25 for \$1.25; 100 for \$3.50.

BLACKBERRIES

ELDORADO—Comparatively new variety, and has proven to be the best of all blackberries under cultivation. Very hardy. Fruit very large, jet black, good shipper, good quality, great producer. Price, 25 for \$1.50; 100 for \$4.00; prepaid.

DEWBERRY

LUCRETIA DEWBERRY—Hardy, productive, best variety, sweet. Highly recommended. Price, 25 for \$1.00; 100 for \$3.25; prepaid.

Hardy Vines *and* Hedge Plants

CLEMATIS

PANICULATA—Extremely showy when covered with small white fragrant flowers which appear late in the season. Beautiful, shiny, green foliage. 2-year-old No. 1 plants, 40c each; 3 for \$1.00; prepaid.

BITTERSWEET

SCANDENS CELASTRUS—Bright-colored fruit remaining usually throughout the winter. Grow in almost any soil and situation. Fruit is orange-yellow, with crimson seed. 35c each; 3 for \$1.00; prepaid.

HONEYSUCKLE

LONICERA (Hall's Japan Evergreen Honeysuckle)—Honeysuckles are well adapted for the covering of walls, arbors, etc. Leaves remain on during the winter. The flowers are white, turning to yellow, very fragrant. 25c each; 5 for \$1.00; prepaid.

BIGNONIA (Trumpet Creeper)—A beautiful orange-colored flower. Blooms profusely and a fast grower. 2-year-old plants, 40c each; 3 for \$1.00; prepaid.

CINNAMON VINE

Hardy climber and makes a very vigorous growth, 15 to 20 ft. in one season. Has attractive bright green foliage and small white fragrant blooms. 15c each; 3 for 35c.

WISTARIA

CHINESE WISTARIA (Chinesis)—Will bloom the first year. Has pale green leaves and bears profusely dense, drooping clusters, purplish, pea-shaped flowers. Blooms in May. 2-year, 50c each; 2 for 90c; prepaid.

BOSTON IVY—Once established it grows rapidly, needing only an occasional trimming to keep it within bounds. The glossy leaves turn to a brilliant orange-scarlet in the fall. 2-year-old, 40c each; 3 for \$1.00.

HEDGE PLANTS

BEAUTIFY WITH HEDGES

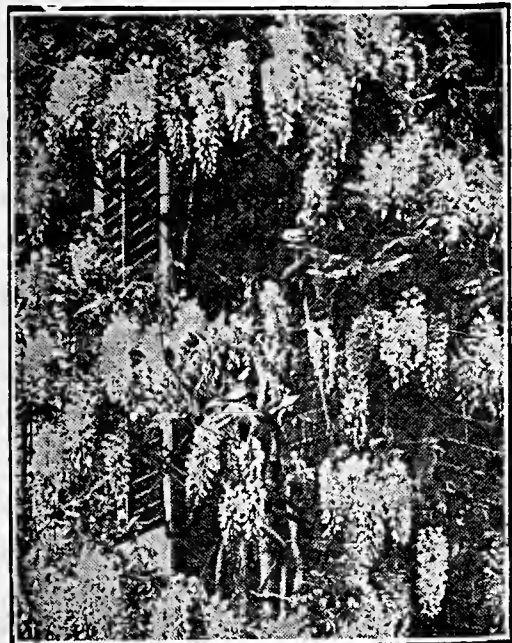

ALTHEA (Rose of Sharon)—They can be kept trimmed quite low, or can be allowed to grow tall as a screen. A hedge of them in bloom, with all colors of flowers, is a wonderful sight. 12-18 in., 25 for \$1.00; 50 for \$1.50; 100 for \$2.50.

AMOR RIVER PRIVET—Hardest of all hedge plants. Beautiful upright growth, very compact. Holds its foliage till middle of October or later. 18-24 in., 25 for \$1.75; 100 for \$5.50.

CALIFORNIA PRIVET—Free growth and succeeds under the adverse conditions; good in south. Foliage is nearly evergreen, remaining on the plant until mid-winter. Nice plants; 18-24 in., 25 for \$1.50; 50 for \$2.50.

JAPANESE BARBERRY (Berberis Thunbergii)—One of the best hedge plants in existence. Beautiful throughout the year; abundant crop of bright red berries in winter. Compact growth and thorny branches make a defense hedge that will turn cattle after five years' growth. Poor soil is no barrier. 12-18 in. plants, 25 for \$2.00; 50 for \$3.50; 100 for \$6.50.

SPIREA VAN HOUTTEI—With its charming and delicate foliage is one of the finest of shrubs for hedges. It never fails to attract with its perfect mass of pure white flowers or pendulous branches, often drooping to the ground. Foliage is attractive late in fall. 18-24 in., 10 for 90c; 25 for \$2.00.

CHINESE WISTARIA

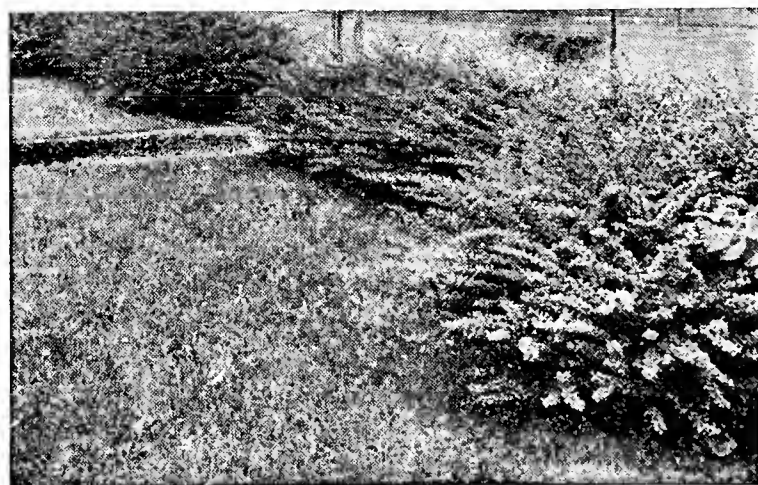

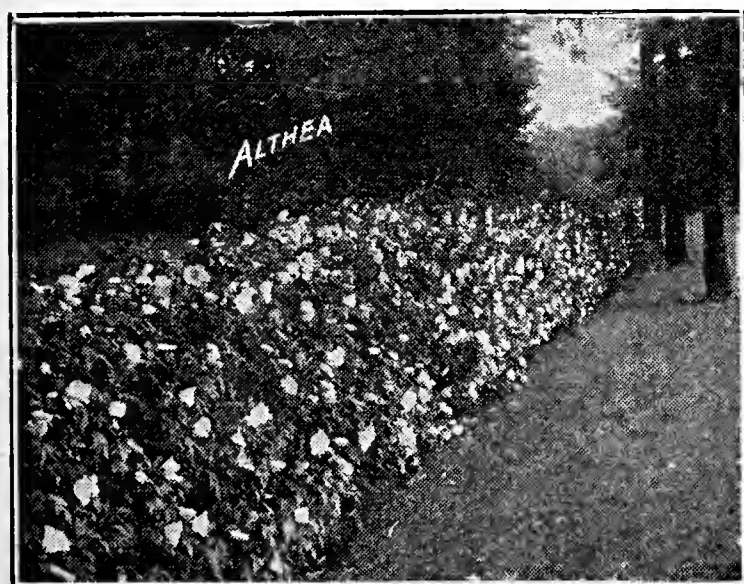

ALTHEA (Rose of Sharon)—They can be kept trimmed quite low, or can be allowed to grow tall as a screen. A hedge of them in bloom, with all colors of flowers, is a wonderful sight. 12-18 in., 25 for \$1.00; 50 for \$1.50; 100 for \$2.50.

AMOR RIVER PRIVET—Hardest of all hedge plants. Beautiful upright growth, very compact. Holds its foliage till middle of October or later. 18-24 in., 25 for \$1.75; 100 for \$5.50.

CALIFORNIA PRIVET—Free growth and succeeds under the adverse conditions; good in south. Foliage is nearly evergreen, remaining on the plant until mid-winter. Nice plants; 18-24 in., 25 for \$1.50; 50 for \$2.50.

JAPANESE BARBERRY (Berberis Thunbergii)—One of the best hedge plants in existence. Beautiful throughout the year; abundant crop of bright red berries in winter. Compact growth and thorny branches make a defense hedge that will turn cattle after five years' growth. Poor soil is no barrier. 12-18 in. plants, 25 for \$2.00; 50 for \$3.50; 100 for \$6.50.

SPIREA VAN HOUTTEI—With its charming and delicate foliage is one of the finest of shrubs for hedges. It never fails to attract with its perfect mass of pure white flowers or pendulous branches, often drooping to the ground. Foliage is attractive late in fall. 18-24 in., 10 for 90c; 25 for \$2.00.

Japanese Barberry

HARDY SHRUBS

AT LOWEST POSSIBLE PRICES—ALL PREPAID

These shrubs, all shedding their foliage in the winter, are quite hardy, and will thrive in practically all sections. They make a rapid and luxuriant growth. Many varieties are used in foundation plantings, and others are desirable for flowers and berries.

Plant this fall. Your shrubs will develop a good root system and start to grow early in the spring. You will gain a year by planting now. All shrubs on this page prepaid.

ALTHEA—ROSE OF SHARON

ALTHEA (Rose of Sharon)—Bright green leaves and great abundance of variously colored flowers make it very effective when planted as a hedge. Blue-purple to violet-red, flesh color and white. There are also double forms. Mixed colors. 2-3 ft., 25c; 3 for 70c.

GRAFTED DOUBLE FLOWERING VARIETIES

BOULE DE FEU—Double Red; shrub form.

JEANNE D'ARC—Double White; shrub form.

LADY STANLEY—Double Pink; shrub form. 2-3 ft., 35c; 3 for \$1.00.

ARALIA SPINOSA

ARALIA SPINOSA (Hercules Club, Devil's Walking Stick)—15 ft. Stout, prickly stems, large leaves, enormous clusters of flowers, gives sub-tropical appearance. 45c each; 2 for 85c.

ARALIA (Pentaphyllum)—Five leaved Aralia. Yellow. June. Hardy shrub, thriving in adverse soil and city conditions, foliage attractive. 2-3 ft., 35c each; 3 for \$1.00.

BARBERRY—BERBERIS

JAPANESE (Thunbergi)—Grows low and dense, making it very adaptable for planting along walks and borders. Every driveway can be beautified greatly by planting Barberry. 12-18 in., 20c each; 18-24 in., 30c each; 4 for \$1.00.

RED LEAVED BARBERRY—Finest shrub in recent years. Bright red in the spring, stays red through the summer and deepens to a deep crimson in the fall. Red berries stay on all winter. Unequalled for bright coloring. All that is required to develop its brilliant coloring at all seasons is that it be planted in full exposure to the sun. 12-18 in., 25c; 5 for \$1.00.

CALYCANTHUS

SWEET SCENTED SHRUB—A unique shrub growing upright to 6 feet, clothing its straight, strong, reddish-brown shoots with large glossy leaves, from the axils of which spring odd, double, spicily fragrant flowers of chocolate-red. 1½ to 2 ft., 35c; 3 for \$1.00.

DOGWOOD—CORNUS

STOLONIFERA AUREA (Golden-barked Dogwood) (II)—Bright yellow bark in winter. Very effective when planted with red-barked varieties. 2 to 3 ft., 35c each; 3 for \$1.00.

RED TWIGGED (Siberica)—Grows 10 to 12 feet high, purple or dark blood-red branches. Flowers greenish-white. Fruit is black. 18-24 in., 35c; 3 for \$1.00.

CYDONIA

FIRE BUSH—Common garden form, growing 3 to 6 feet with spreading, spiny branches. The scarlet-red flowers appear before the leaves and are followed by globular fruits from one and one-half to two inches high. 18-24 in., 35c; 3 for \$1.00.

DEUTZIA

An elegant species of strong, erect-growing shrubs. Especially prized for the beautiful clusters of blossoms in May.

PRIDE OF ROCHESTER—Showy, early, large-flowering sort; blossoms in May before others. Grows 6 to 8 feet high. White flowers, large and double. 18-24 in., 30c each; 4 for \$1.00.

GRACILIS—A handsome, dwarf and bushy little shrub with slender, often arching branches. A neat shrub that blooms in May, clothing its branches in pure white flowers. Valuable for shrubberies or for forcing. 12-18 in., 35c; 2 for 65c.

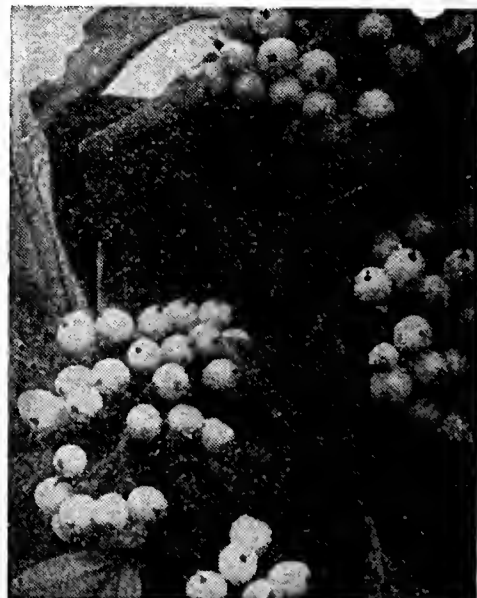

Flowering Almond

Althea

Calycanthus or Sweet Scented Shrub

Cornus Siberica

SHRUBS

PREPAID PRICES

EUONYMUS

BURNING BUSH (Corky Bark) (Alatus)—An attractive, ornamental shrub to eight feet. The flowers appear in May and June. In autumn the foliage changes to a fine rose color. 2 to 3 ft., 60c.

STRAWBERRY BUSH (Americana)—An ornamental, upright shrub to eight feet. The flowers appear in June, are yellowish or reddish green, followed by pink fruits which are very attractive. 2 to 3 ft., 50c each.

FORSYTHIA—GOLDEN BELL

FORTUNII—Shrub of fountain-like habit, every twig densely covered with bright yellow flowers in early spring. 2-3 ft., 30c ea.; 4 for \$1.00.

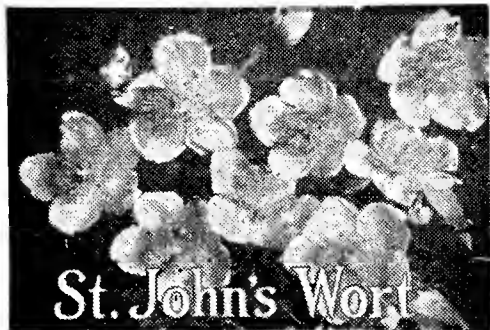

SPECTABILIS (Golden Bells)—This is the earliest to bloom of all the flowering shrubs and an immense improvement over old Forsythias. It is compact in growth and every branch is closely covered with vivid yellow flowers before the foliage appears. Price, 2-3 ft., 30c ea.; 4 for \$1.00; prepaid.

WEeping (Suspensa)—Highly ornamental free flowering shrub, growing to 5 feet; the branches are often drooping on the ground and taking root. They grow in almost any garden soil and are hardy north. The golden yellow flowers appear in early spring. Excellent for margins and groups. 2-3 ft., 35c ea.; 3 for \$1.00.

HYDRANGEA

ARBORESCENS GRANDIFLORA (Hills of Snow)—The flowers are, in a large way, similar to the familiar "Snowball" in appearance; conspicuously white and imposing. July to September. By cutting back to the crown each spring, the bushes may be kept round and dense as a normal height of 3 to 5 feet. They are excellent for solid low borders or in foundation plantings, which will allow for about four feet. 18-24 in., 35c; 2 for 65c.

PANICULATA GRANDIFLORA—Fine tall hedges, or if planted in rich soil and severely pruned every spring before the leaf buds open, will get to be very dense, dwarf clumps of compact form; wonderfully attractive when laden with their massive white plumes. Large beds, kept at a uniform development are extremely showy, first, snowy white, then pink, then reddish bronze and green. 18-24 in., 35c; 3 for \$1.00.

HYPERICUM

ST. JOHN'S WORT—This lovely shrub has golden yellow flowers—at the center of which are found hundreds of golden stamens. Low-spreading shrub with reddish stems. Leaves evergreen in the south—brown in the north. 18-24 in., 35c; 3 for \$1.00.

HONEYSUCKLE

MORROWI—A very decorative shrub that reaches six feet in height. The beautiful pure white flowers appear in May or June and are followed by red fruits, which remain until late autumn. 2-3 ft., 30c; 4 for \$1.00.

TARTARIAN (Tartarica)—This is one of the old-time favorite shrubs. It attains about ten feet in height and is extremely easy to cultivate. The upper lip is deeply divided and spreading. 30c each; 4 for \$1.00.

Kolkwitzia

KOLKWITZIA (Beauty Bush)—Graceful, arching shrub with center almost upright. The flowers are produced along the whole length of the branches in clusters at the ends of short, leafy shoots. They are tubular with a gaping mouth, deep pink without, stained with yellow brown on the lower throat and lip. The graceful habit of the plant, its free-flowering qualities, pleasing color, combined with perfect hardiness, make this one of the most beautiful, as well as most useful shrubs that China has given to the gardens of this country. 35c each; 3 for \$1.00.

LILACS

Fall is the ideal time to plant Lilacs.

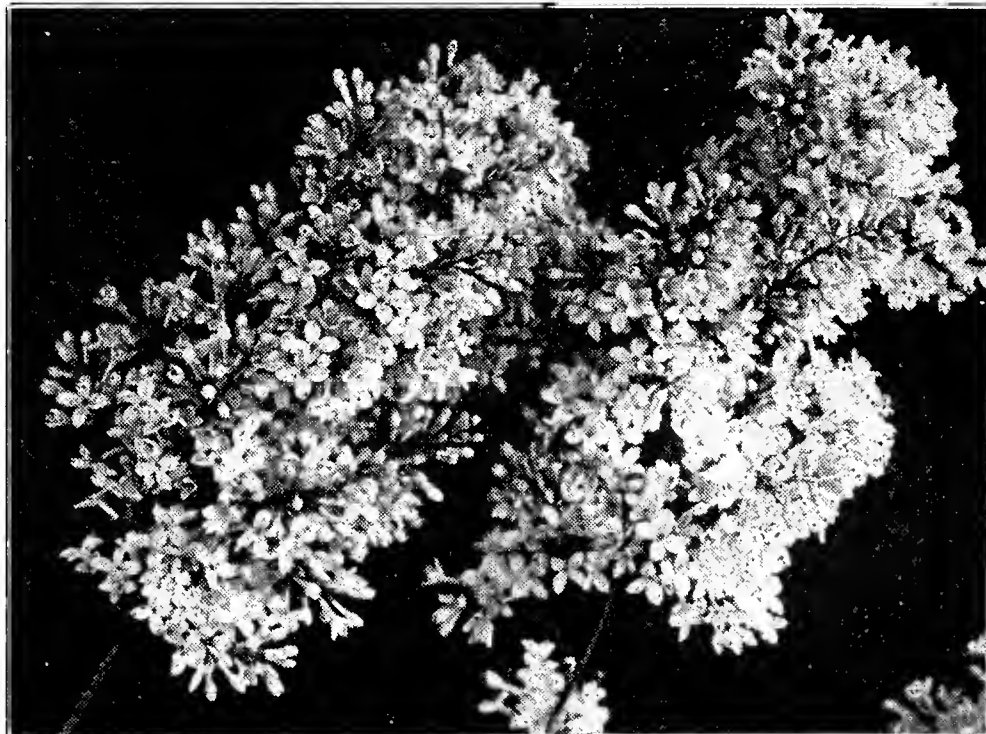

CHINESIS—Graceful plant, 10-12 ft. Compact clusters of purplish lilac flowers. 2-3 ft., 45c; 2 for 85c.

PERSICA—Wiry bush 8-10 ft. Fragrant, light purple flowers in large, loose clusters. 35c each; 3 for \$1.00.

VILLOSA—Tree like shrub, 12 ft. Pale, pinkish flowers in late June. 2-3 ft., 45c each.

FRENCH HYBRID LILACS—Very hardy, easily grown. Graceful plants and very fragrant.

MIXED—Splendid varieties, on their own roots. 18-24 in., 35c each; 3 for \$1.00.

SHRUBS CONTINUED

ALL PREPAID

PHILADELPHUS

SYRINGIA GRANDIFLORA—Large, flowering shrub, growing to about eight feet, with spreading branches, usually upright and vigorous; flowers slightly fragrant. Rapid grower and most hardy. 2 to 3 ft., 30c each; 4 for \$1.00.

CORONARIUS (Mock Orange)—This is not quite as showy as some of the other species and of somewhat stiff habit, but deliciously fragrant. 2 to 3 ft., 30c each; 4 for \$1.00.

AUREA—Similar to the above variety except that the foliage is a beautiful golden color. 12 to 18 in., 25c; 18 to 24 in., 40c.

VIRGINAL (Blooms throughout the season)—This is a new and wonderful addition to the Mock Orange family. One of the most beautiful shrubs. 2-3 ft., 35c each; 3 for \$1.00.

ROBINA HISPIDA

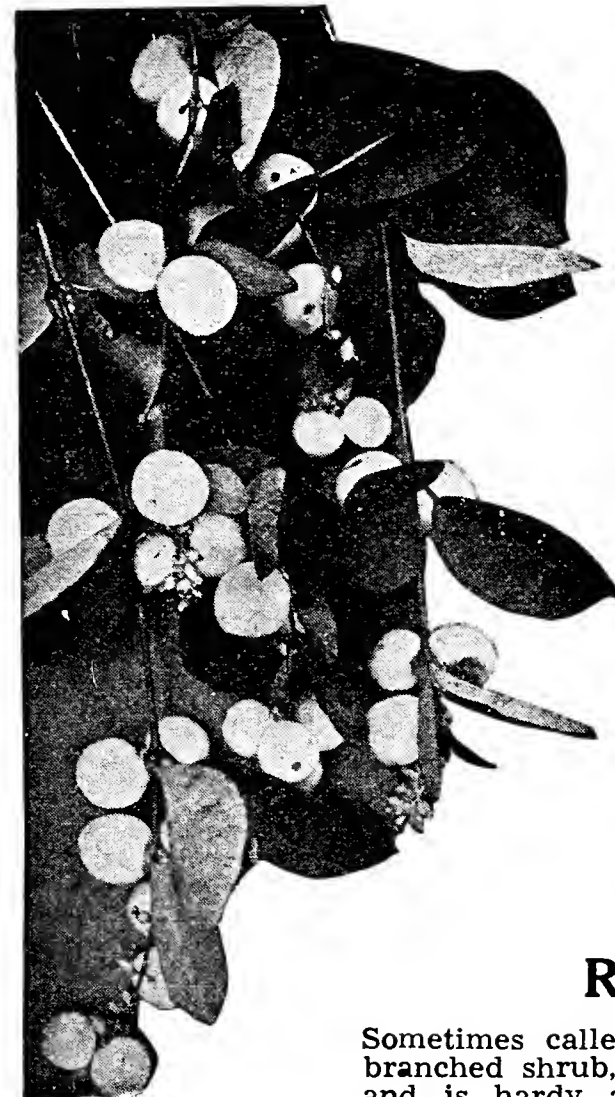

PINK FLOWERING LOCUST—Elegant clusters of rose-colored flowers, which expand toward the last of May and continue for some time. The branches resemble the Moss Rose. Beautiful in masses. 2-3 ft., 35c each; 3 for \$1.00; prepaid.

RHUS COTINUS—SMOKE TREE

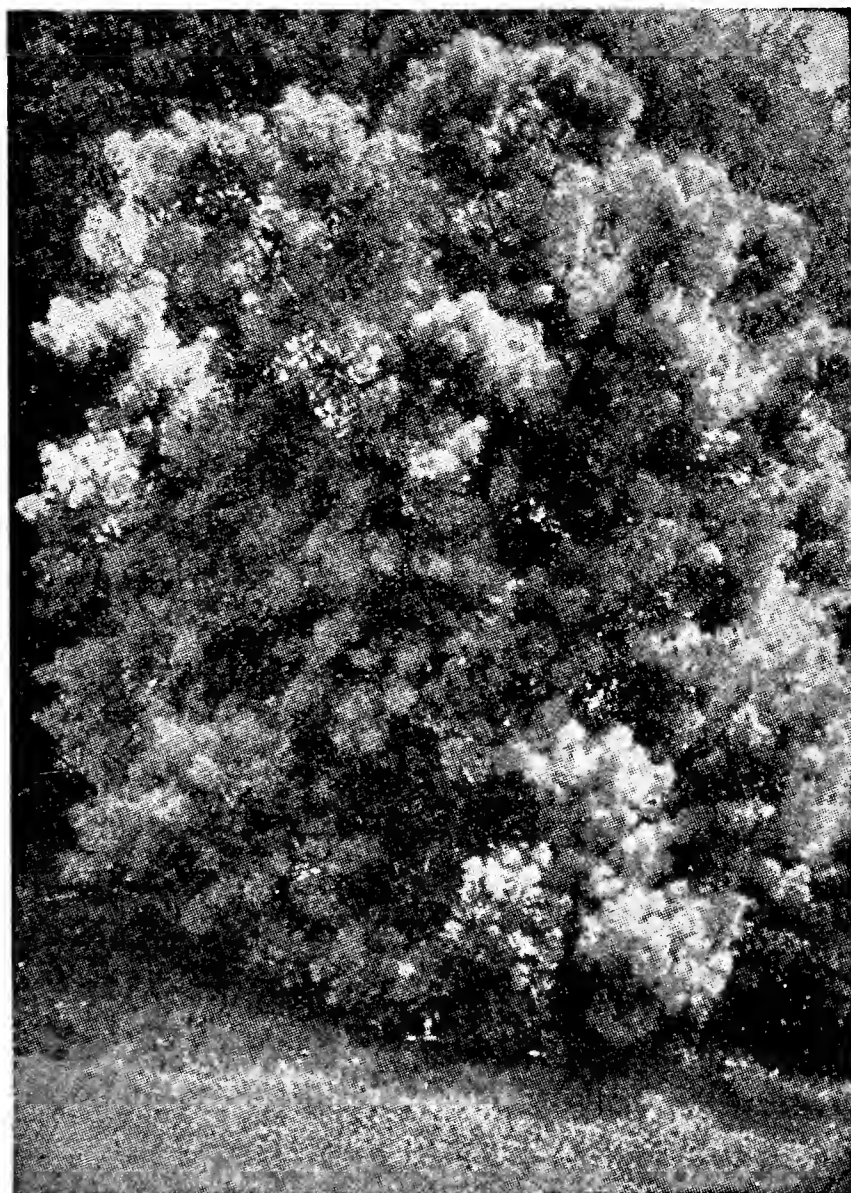

Unique spreading tree-like shrub with large leaves. Overhung in midsummer by cloud-like masses of very light, mist-like flowers, having the appearance of smoke. Foliage changing to a brilliant shade of red and yellow in autumn. 18-24 in., 35c each; 3 for \$1.00.

RHODOTYPHUS KERROIDES

Sometimes called the White Kerria. A very ornamental, deciduous much-branched shrub, usually from three to seven feet, handsome and distinct, and is hardy as far north as Massachusetts. Has bright green foliage. Made very conspicuous by its white flowers in May or June and black fruits in the fall. 2 to 3 ft., 40c each; 2 for 75c; prepaid.

White Snowberry

Smoke Tree

SNOWBERRY

Symphoricarpus

WHITE SNOWBERRY—A perfectly hardy shrub from two to three feet high, excellent for massing in the lower parts of a bed or border. The rose-colored flowers appear in loose, often leafy racemes in July and August. The white waxy-like berries remain on until late in the autumn. 18 to 24 in., 30c each; 4 for \$1.00.

NEW RED SNOWBERRY—A new red Snowberry that will produce larger berries by far than the old variety. Berries appear in fall and hang in great clusters. 18 to 24 in., 40c each; 3 for \$1.00.

Staphylea

Bladdernut

Trifolia—The leaves are three-parted. The flowers are white with greenish-white sepals, produced in nodding clusters. The fruits are inflated, three-lobed. This species flowers in April and fruits in September. This is one of the best shade loving shrubs.

Philadelphus

SHRUBS CONTINUED

SPIREA - The Most Popular Shrub

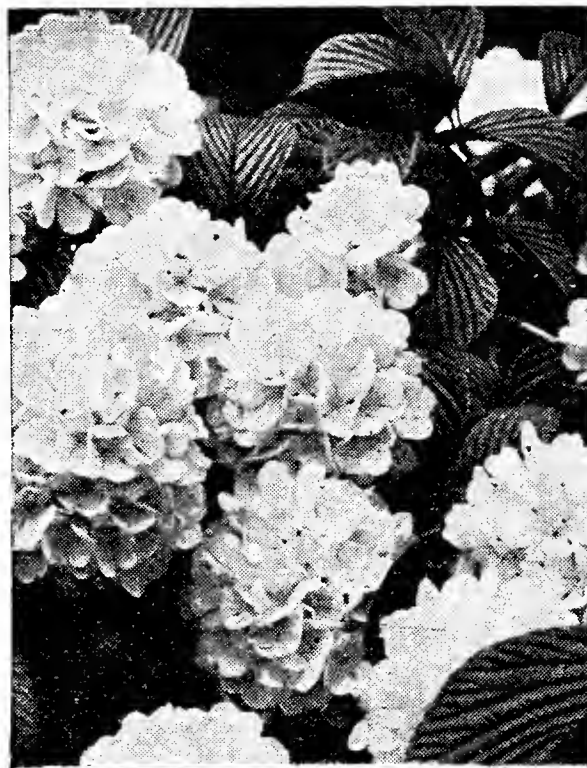

ANTHONY WATERER (F)—Bright pink, June and July. A compact low-growing shrub with dense foliage. Flowers are borne in full flat clusters on erect stems. Very valuable for edging in front of shrubbery or as a dwarf hedge. 12-18 in., 30c; 4 for \$1.00; prepaid.

SPIREA BILLARDI—Erect-growing with dense spikes of rose-pink flowers in July and August and again in the fall. 4 to 6 feet high. 2-3 ft., 35c; 3 for \$1.00; prepaid.

NEW SPIREA RICHEMENSIS—Upright growing spike-like flowers. Blooms practically the entire summer. Pink Rare and worthwhile. 18-24 in., 30c; 2 for 55c; prepaid.

SPIREA VAN HOUTTEI—4-6 ft. White. May. This is the most useful of the hardy shrubs. The flowers are in flat clusters usually an inch or more across produced on spreading, pendulant branches often drooping to the ground. 2-3 ft., 25c; 3 for 60c; prepaid.

KOREAN SPIREA (Trichocarpa)—New hardy Spirea. Similar to Van Houtteii. Blooms a little later and flowers much larger. 18-24 in., 30c; 2-3 ft., 40c; 3 for \$1.00.

Japanese Snowball

SUMAC

STAGHORN (Typhina)—This variety grows in the driest soils and is a very desirable plant on account of its brilliant fall coloring which in dry locations begins to show in August. The crimson fruits remain on all winter. 2 to 3 ft., 35c each; 3 for \$1.00.

VIBURNUM—SNOWBALL

ARROW WOOD (Dentatum)—A gorgeous upright, native shrub, thriving best in moist soil. It is especially hardy, doing well from New Brunswick to Minnesota. It blooms in May or June, followed by black fruit. 2 to 3 ft., 40c each; 2 for 75c; prepaid.

COMMON (Var. Sterilis)—This is the well known, common snowball of the old-fashioned gardens. Besides the snow-white flowers in May, the foliage is decorative and assumes a bright color in fall. 18 to 24 in., 35c each; 2 for 60c; 2 to 3 ft., 45c each; prepaid.

HIGH BUSH CRANBERRY (Opulus)—Handsome native shrub attaining twelve feet with rather smooth, light branches and stems. The pure white flowers appear in May and June, followed by decorative fruits, which begin to color by the end of July and remain on the branches and keep their bright scarlet color until the following spring. The berries are not eaten by birds. 18 to 24 in., 30c each; 4 for \$1.00; 2 to 3 ft., 40c each; 3 for \$1.00; prepaid.

JAPANESE (Tomentosum, var. Plicatum)—One of the choicest shrubs. Foliage is abundant during the summer and fall, and its balls of pure white are borne in great profusion. Fine for specimen planting. 18 to 24 in., 60c; 2 to 3 ft., 80c; prepaid.

LANTANA (Wayfaring Tree)—This is a hardy shrub, especially for dry situations and limestone soil. The large white flower clusters open in May and June, and are followed by red fruits. The foliage is particularly soft and heavy. 2 to 3 ft., 40c; 2 for 75c; prepaid.

WEIGELAS

ROSEA—A choice vigorous sort, which yields an immense crop of deep pink trumpet-like flowers in June, and bears a scattering of blossoms through the rest of the season. 2 to 3 ft., 35c each; 3 for \$1.00.

NANA VARIEGATA—Leaves of this sort are variegated with white flowers, are nearly white. Dwarf. 18 to 24 in., 35c each; 3 for \$1.00.

EVA RATHKE—The flowers are a deep carmine red, erect growing. A most profuse bloomer in spring and again in autumn. 18 to 24 in., 45c each; 2 for 80c.

TAMARIX

HISPIDA—A graceful shrub; upright branches, flowers pink, appearing in August. 2-3 ft., 35c; 3 for \$1.00; prepaid.

AFRICANA—Is an upright grower. Blooms in May. 2-3 ft., 35c each; 3 for \$1.00; prepaid.

PUSSY WILLOW

PUSSY WILLOW (Not the Wild Pussy Willow)—Dainty silvery flowers every winter. A beautiful round shrub in summer. Wherever you have room for a Lilac or Snowball, you have room for a Pussy Willow. Use them for tall screens or backgrounds. Cut the ends of the branches in January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silvery pink, from 1 to 2 inches long. Price, 2-3 ft., 35c each; 3 for \$1.00; prepaid.

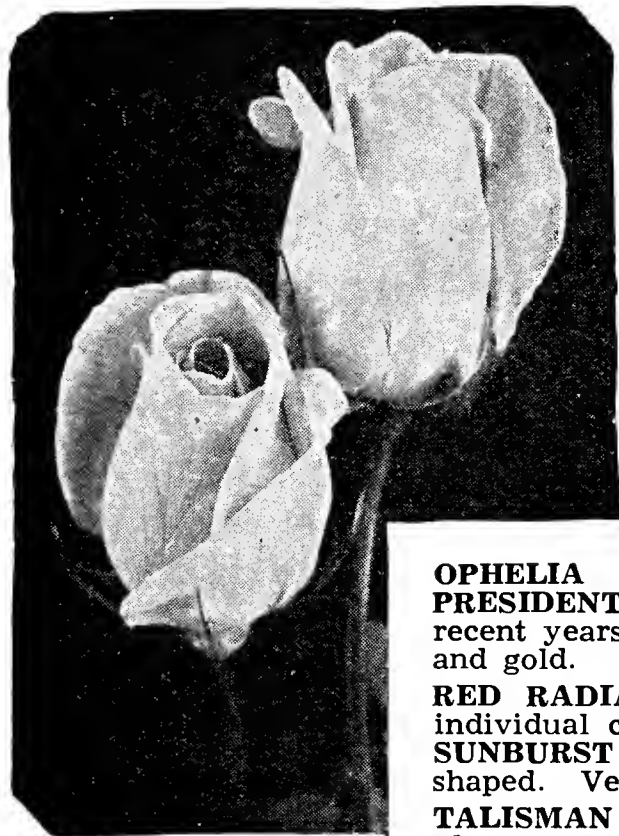

Tamarix Africana

ROSES

THE LOVELIEST FLOWER OF ALL TEA AND PERPETUAL ROSES

Tea Roses are Marked (T) Perpetuals Marked (P)

Prices, any variety below, 2 yr. old, field grown, first class, 50c each; 3 for \$1.40; prepaid.

Ophelia Rose

FRAU KARL DRUSCHKI, (P) or WHITE AMERICAN BEAUTY or SNOW QUEEN—Best snow-white Rose ever introduced. Strong grower. Immense in size and produced with great freedom.

GRUSS AN TEPLITZ (T)—Fiery crimson, shaded with a dark velvety sheen. Double flowers. Incomparable for fragrance.

KAISERIN AUGUSTA VICTORIA (P)—Creamy white and sweetly fragrant; buds are large and pointed and flowers very full and large. Very hardy.

PINK KILLARNEY (T)—Color deep, brilliant, sparkling shell-pink; hardy everywhere.

MARGARET McGREDY—One of the few good novelties; red-rose, and flame on the upper side of the petals, the under surface suffused with gold—a wonderful contrast; very free and prolific bloomer and extremely hardy.

OPHELIA (T)—Salmon-flesh, shaded rose, flowers stand up well.

PRESIDENT HERBERT HOOVER—The best American introduction of recent years. Hardy and free flowering, a blending of maroon, orange, and gold.

RED RADIANCE (T)—Big, globular flowers of deep rose-red on strong, individual canes which are freely produced all summer.

SUNBURST (T)—Fine yellow flowers, orange at center, fragrant, and well shaped. Very beautiful.

TALISMAN (T)—Brilliant red and gold buds, opening to well-shaped blooms of scarlet-orange and rich yellow. Tall, vigorous growth. Constantly in bloom. The most vivid color yet produced in Roses.

HARDY CLIMBING ROSES

2 yr. old first class, 30c each; 4 for \$1.00; prepaid.

CLIMBING AMERICAN BEAUTY—American Beauty Rose in climbing form. Has all the characteristics of its relative, including form and fragrance. Healthy foliage and has strong climbing habit of growth; the abundant bloom being in prime before the June show of the bush variety.

EXCELSA—A sensational new hardy climbing rose, sometimes called "Red Dorothy Perkins." This great new rose is nearly evergreen and is absolutely hardy. Flowers very double, produced in immense trusses. Intense crimson; new and distinct.

DOCTOR VAN FLEET—Flower when open runs 4 inches or more in diameter in which it compares with the Tea class. Center built high, petals undulated and cupped. Color is a remarkably delicate shade of flesh-pink. Admirable cutting variety with stems 12 to 18 inches long.

FLOWER OF FAIRFIELD (The New Everblooming Scarlet Rambler)—Commences flowering in the spring or early summer and produces repeatedly. It blooms very profusely on young wood the first year. Very effective for covering walls, trellises or arches, equally attractive for table decorations.

GARDENIA (H. W.)—Bright yellow, cream color, double, very fragrant, early flowering. This is the hardy Marechal Niel.

MARY WALLACE—Hardy as far north as Central Ohio. Blooms two or three times during the summer. Bright clear rose-pink with salmon at base of petal.

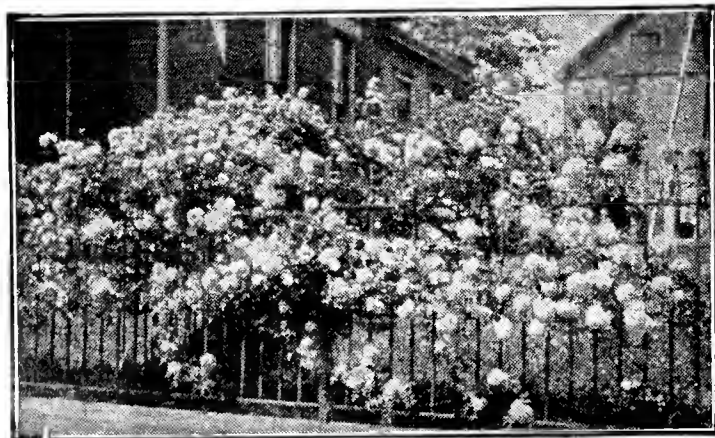

PAUL'S SCARLET CLIMBER—A wonderful Rose for trellis or pergola. Winner of Gold Medal as best new climbing rose at National Rose Society's Exhibition. Scarlet, shaded crimson. Corresponds

to the Climbing American Beauty and Dr. Van Fleet as to size, shape and habit. Blooms very long, holding flower after many June bloomers have dropped their petals.

ROSA HUGONIS (A New Bush Rose from China)—Like many other rare floral gems from the Orient, this variety is spectacular in its exotic beauty. Imagine a many-branched shrub, 6 to 8 feet tall, rearing slender sprays in all directions, gracefully arching beneath loads of bright yellow single flowers an inch and a half in diameter. Strong field-grown plants, each 40c; 2 for 70c; prepaid.

BARGAINS FOR FALL

Extra Good Varieties Evergreens

Here is an opportunity to have some of the new and better evergreens at a very reasonable price. These are small plants—8 to 12 in.—that will transplant with practically no loss. In a few years you will have some very fine specimen plants. First time we have made this offer.

OVER 75 YEARS IN THE NURSERY BUSINESS

JUNIPER VA PENDULA—Unusual weeping form with slender pendulous branches. 40c each; 2 for 75c.
SMITHII—Unusual in habit and color. Light green foliage. Remains fresh and bright throughout the winter. 40c each; 2 for 75c.

KOSTERIANA—Semi-dwarf. Spreading, naturally and gracefully. Very hardy. Bluish green color. Unusually handsome. Ideal in rockeries and around pools. Each 35c; 2 for 65c.

SCHOTTII—Light yellowish green color. Does not change in winter, but retains its lovely foliage throughout the year. Compact and symmetrical growth. 40c each; 2 for 75c.

JUNIPER SCOPULORUM—Upright growth, silvery color. Thrives in hot dry weather. Not easily injured by snow and sleet. Good shape. 40c each; 2 for 75c.

BURKII—Symmetrical habit. Dense foliage. Distinct. Silvery gray until frost, then becomes overlaid with purple tones. Fine for specimen. 40c each; 2 for 75c.

THUYA ELEGANTISSIMA—One of the finest. Broad based pyramid. Well formed. Lustrous green leaf. Branches are tipped with gold in spring but retain the green coloring throughout the winter. 35c each; 2 for 65c.

PHLOX

These new and better varieties are specially priced at 15c each; 3 for 40c; \$1.45 a dozen, prepaid.

ECLAIREUR—Brilliant rosy Magenta, white eye. July-August.

NICHOLAS FLAMMEL—Beautiful new red, large flowers, bright carmine lake with crimson eye.

FUERBRAND (Fireglow)—Brilliant orange-scarlet. Sometimes almost vermillion. Flowers very freely and blooms are produced in quantity throughout the entire season.

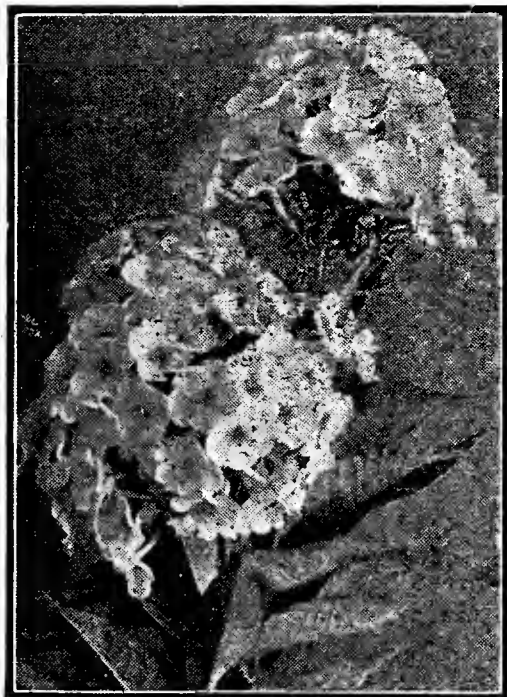

MRS. MILLY VAN HOBOKEN—An excellent new variety. Very large florets combined in rather loose, large heads. Color bright pink with a slight and delicate mauve suffusion. Strong grower and free-flowering.

RIJNSTROOM—A good strong grower producing an abundance of stems, each one topped with heavy trusses of flowers of a lively rose-pink, much like the color of the Paul Neyron Rose.

MARSHAL FRENCH—It is the best red that has ever been grown. It is carmine in color, retaining its color over a period of many days, and in as far as we have observed it has never had a fault.

SEBOLDI—A beautiful orange-scarlet, very late.

MRS. JENNER—White—pink eye.

Mrs. Jenner Phlox

HARDY FERNS

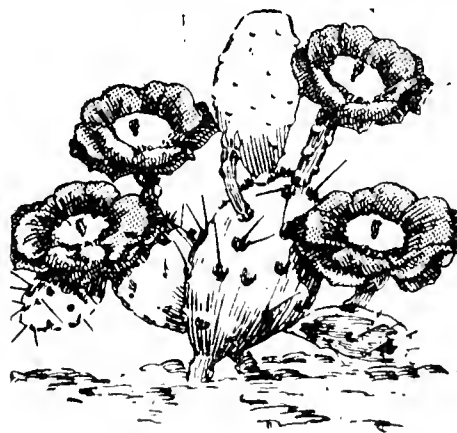

The most beautiful and natural effects can be produced by planting hardy ferns. They are perfectly hardy and can stand planting either in shady or sunny positions. The Hardy Ferns are most satisfactory for planting on shady banks and around porches where the sun does not reach. Do well in any good well drained soil and require practically no care. No home should be without them. We can furnish either of the following varieties. 15c each; 6 for 75c; prepaid.

OSTRICH FERN—The large leaf, tall growing variety.

VAL FERN—One of the large growing varie-
